**Job ID:** Req #391

**Application Deadline:** September 15, 2025

#### Your opportunity

By joining the Kardium team, you can help make a difference in the lives of millions around the world. We have developed a ground-breaking medical device for the diagnosis and treatment of the most common heart rhythm disorder, atrial fibrillation - which can cause stroke, heart failure, and other heart-related complications.

Kardium's mission is to deliver the best treatment for atrial fibrillation. To achieve this, we have developed The Globe® Pulsed Field System - we have a fantastic technical team that has developed a product with strong, unique, and customer-valued differentiators versus other solutions on the market. We have built connections with key opinion leaders who are already using the Globe System and are helping to tell our story.

We have now completed our pivotal clinical study and our focus is on regulatory approvals and commercial launch. This is an exciting and significant milestone in our journey to bring this ground-breaking technology to patients.

#### What you'll be doing

You will engage in activities that develop practical and transferable skills such as:

- Collaborate with Manufacturing and Engineering teams to enhance QMS capabilities and promote a culture of quality.

- Coordinate the collection of information and the preparation of quality documentation.
- Assist in tracking and analyzing trends in productivity, timeliness, and quality metrics.
- Develop training materials related to the new ERP system for the QA Ops team.
- Support various quality and operations tasks as needed.

## Job Requirements

### What you bring to the team

Our Kardium team is smart, creative, and passionate about creating cutting-edge medical devices to help improve people's lives. We work within a collaborative environment based on trust and respect. And we understand that only by working together can we solve the unsolvable.

You will be successful in this role because you possess these attributes:

- High level of attention to detail
- Strong analytical and problem-solving skills
- Excellent written and verbal communication skills
- Proficiency with Microsoft Office Suite
- Enthusiasm toward finding solutions to unforeseen challenges
- A history of success working in a team setting
- Enrollment in post-secondary program related Science or Engineering

**Citizenship Requirement** N/A

## APPLICATION INFORMATION

**Application Procedure** Through Employer Website

**Cover Letter Required?** Yes

**Address Cover Letter to** Hiring Manager
