<b>Job Description</b>	

**Job Title: PepsiCo Canada IT Analytics Co-op - Summer 2026**  
**Job ID: 389307**

Are you hungry for an exciting and challenging opportunity in a fast-paced, diverse organization?

If so, you have a future at PepsiCo. As a world class organization, we strive for excellence in everything that we do! To accomplish our goals, we need talented, innovative, creative people who know how to work hard and have fun.

Taste the success with Canada's fastest growing CPG Company and discover how our passion for growth creates big challenges and big opportunities: personally, professionally, and financially.

At PepsiCo, we leverage an amazing range of technologies throughout our business; from mobile apps to advanced analytics, from cloud connected sensors to complex data integrations and everything in between.

#### **Reasons to Consider PepsiCo for your Co-op Placement:**

- Ongoing professional development to expand your business knowledge
- Opportunities to work with a wide range of functional departments and leaders
- Make an impactful change with your projects
- Ability to flex work arrangements
- To work with, and learn from business partners to gain key decision-making skills
- Opportunities for various plant tours and visits

#### **Responsibilities**

As an IT Analytics Intern, you will work with various business functions across PepsiCo Canada, and will be responsible for

gathering requirements, building tools/analytical capabilities, modernizing business processes, and driving innovation.

**Key responsibilities will include:**

- Leverage various data analytic tools such as Power BI, Azure Data Lake, Power Automate, and PowerApps
- Consult with Business Partners to provide key data insights using various Business Intelligence tools
- Engage technology and business leaders to leverage tools to solve real world business challenges
- Liaise with clients to identify and define requirements, scope and objectives
- Act as the point of contact and communicate project status to all stakeholders
- Support agile project plan development, monitoring and tracking project schedule, and tracking issues and risks
- Support the development of user acceptance test cases and test execution activities
- Oversee creation and maintaining comprehensive project documentation

**Job Requirements**

**Qualifications**

- Motivated learner enrolled in a Business, Computer Science, Finance/Mathematics, Engineering, or IT related program
- Previous work experience as a Business Analyst or similar role preferred
- Exposure to Agile methodologies
- Solid communication, organizational skills, including multitasking and time-management required
- Strong skills in developing presentations and reports
- Strong working knowledge of Microsoft Suite (Outlook, Word, Excel, PowerPoint) required
- Knowledge of SQL an asset
- Experience in Analytics from conception to delivery of an asset
- Working experience with Microsoft Power Apps, Power BI and data wrangling tools (e.g. Trifacta, VBA Macros, Databricks) is an asset.
- Self-motivated, enthusiastic, and able to build collaborative relationships!

PepsiCo may use Artificial Intelligence as part of its hiring process. Specifically, we may use AI-based tools to screen, assess, or select applicants.

This posting is for an existing vacancy.

**Citizenship Requirement** N/A

**APPLICATION INFORMATION**

**Application Procedure** Through Employer Website

**Cover Letter Required?** Optional
