Job Description

Please note: This posting is for an 8-months Winter 2026 Student placement with a start date of January 2026 and end date of August 2026. In order to be eligible for this 8-month Student position, you must either:

- Be returning back to school after the work term end-date of August 2026 ; or
- If you are not returning back to school (i.e. are graduating in December 2025 or August 2026), you must require the full 8-months work term as a mandatory component to in order to graduate successfully.

Please ensure that you meet these eligibility requirements before applying - candidates who apply but are found to be ineligible are not able to be considered.

Please submit your resume and transcript during the application process.

What is the opportunity?

We are seeking a talented and motivated Data Developer to join the Customer Data Management team as part of the Early Data Talent Program. As part of the team, you will receive excellent opportunities to gain hands-on experience with real-world business problems, be challenged to resolve complex tasks, and provided with valuable on-the-job trainings. You will be part of a dynamic team that is passionate about using data to drive business decisions and inform strategic initiatives. Through this 8-month internship, you will have the chance to develop your skills in data science, cloud data engineering and application backend development. Additionally, you will have access to mentorship, training, and networking opportunities to support your career growth and development. If you are a detail-oriented, analytical, and curious individual with a passion for data and a desire to learn and

grow, we encourage you to apply for this exciting opportunity.

What will you do?

- Partner with developers, product managers, and analysts to ensure accurate data collection across marketing and product initiatives.
- Integrate marketing and analytics platforms (GA4, Snowplow etc.) via server-side GTM.
- Maintain GTM container hygiene (naming conventions, versioning, cleanup, documentation).
- Stay current with privacy regulations and ensure tracking aligns with consent frameworks (e.g., OneTrust)

What's in it for you?

We thrive on the challenge to be our best, progressive thinking to keep growing, and working together to deliver trusted advice to help our clients thrive and communities prosper. We care about each other, reaching our potential, making a difference to our communities, and achieving success that is mutual.

- Leaders who support your development through coaching and managing opportunities
- Ability to make a difference and lasting impact
- Work in a dynamic, collaborative, progressive, and high-performing team
- Opportunities to do challenging work and make a difference

Job Requirements

What do you need to succeed?

Must have:

- Proficiency with JavaScript fundamentals (variables, functions, DOM interactions) for custom HTML tags and server-side logic.
- Working knowledge of HTTP requests, headers, cookies, and query parameters.
- Experience debugging with Chrome DevTools, and network inspection tools.
- Ability to translate business/marketing requirements into accurate, privacy-compliant tracking implementations.
- Attention to detail with strong troubleshooting and problem-solving skills.

Nice-to-have:

- Familiarity with analytics platforms (GA4, Snowplow, etc.) and cloud platforms (AWS)
- Understanding of consent management platforms (CMPs) like OneTrust, and data governance practices.
- Knowledge of server-side tracking patterns (data enrichment, transformation)

Citizenship Requirement N/A
