<b>Job Description</b>	

**Job Title:** Aquatic Informatics - Software Development Co-op

**Job ID:** R10262302

### **About the Opportunity**

We are currently looking for **one student** to join our Aquarius Samples development team.

As a Software Developer Co-op at Aquatic Informatics (AQI), you will become an integral member of one of our three development teams. Working in an Agile scrum team, you will be exposed to the breadth of software development activities, including user story definition, design, implementation, unit testing, feature and regression testing, and investigating and debugging tests and customer-reported issues.

AQI is a remote first company. This position is hybrid based in the greater Vancouver BC area as our engineering team gathers regularly to collaborate and meet in our Vancouver office. Wednesdays are an optional in-office day.

At Veralto, we value diversity and the existence of similarities and differences, both visible and not, found in our workforce, workplace and throughout the markets we serve. Our associates, customers and shareholders contribute unique and different perspectives as a result of these diverse attributes.

If you've ever wondered what's within you, there's no better time to find out.

**Citizenship Requirement** N/A

## APPLICATION INFORMATION

**Application Procedure** Through Employer Website

**Cover Letter Required?** Yes

### Special Application Instructions

#### How to Apply

To apply for the Software Development Co-op position at Aquatic Informatics, please submit:

- Your resume & cover letter
- Two references (professional or educational) with contact information

**Please click the "I intend to apply to this position" button on SCOPE and also submit your application via the employer's website.** Applications are accepted on a rolling basis and the posting may be expired at any time by the employer as submissions are received. Students should submit their applications as soon as they are ready.
