### **Job Description**

Thousands of scientists, engineers and technologists use Quartz systems to research, invent, develop, create and improve ideas and products that make the world a better place. We support these innovators by providing and continually improving high quality software solutions.

As developers, we are passionate about creating software and perfecting our craft. As a company, we constantly look for ways to improve our development methodology, to increase our capabilities and to enhance the skills of our employees.

### **Job Description**

The candidates will participate in a team developing ASP.NET web applications and will have the opportunity to learn about and work with the following technologies:

- C# programming
- ASP.NET MVC web development
- Web services
- Microsoft SQL Server
- Scrum development methodology
