### **Position Overview**

The Digital Experience Platform Team is focused on the digital experience for Autodesk customers. We are motivated by the mission to deliver a world-class customer experience that differentiates Autodesk in the marketplace, drives brand loyalty, and delivers our long-term financial results.

As a Frontend Software Engineer Intern, you will work with the team to build applications that help the Autodesk customer experience journey.

### **Responsibilities**

- You'll develop features in JavaScript, Node.js, and React.js
- Improve the performance, availability and scalability of our applications
- Partner with the Engineering Team to lead parts of the sprint ceremonies
- Learn the team's ins and outs and about the experiences we deliver for our customers

**Minimum Requirements**

- Must be currently enrolled in a full-time, degree seeking program with an expected graduation date in 2026
- Strong CS Fundamentals utilizing JavaScript applications

**Preferred Requirements:**

- Prior software engineering experience from internships, hackathons, or other side projects
- Knowledge of React
- Understanding of using AWS and CI/CD

**About the Canada Intern Program**

The Fall 2025 Canada Internship program runs for 16 weeks (September 2 - December 19, 2025). All internships are paid. As an intern, you will contribute to meaningful projects, be mentored by industry leaders, and participate in tech talks and other activities designed to support your personal and professional development. Our internships align with Autodesk's Flexible Workplace approach, which is designed to meet the needs of our business while providing flexibility in support of office, remote and hybrid work preferences.
