<b>Job Description</b>	

#### **Company overview**

We are a Cybersecurity Risk & Compliance Consulting and Product Development organization experiencing rapid growth.

- We offer a unique environment that promotes collaboration and continuous learning, and values work-life balance and fun
- We bring creative product and technology solutions to help solve our clients' complex problems
- We provide consulting services, using an agile approach, to prestigious clients across North America
- We pride ourselves on ensuring the highest standards of quality and service

#### **Description of the role**

- We are looking for a Co-op Student to work as an integral part of our product development team serving enterprises in financial services, public sector, high technology sector, and other industry sectors. You will be engaged in all aspects of software development as part of our team

- You will be an integral part of our team, providing support with some or all of the following activities:
  - Understanding and gathering client requirements
  - Developing software and supporting product management activities
  - Testing and designing technology architecture and solution components
  - Developing technical proof of concepts using cloud technology and client-ready automation and code
  - Supporting implementation of analytics and automation technology, including machine learning

**Job Type**

This is a full-time position

Benefits:

- Be part of dynamic, fun, rapidly growing team
- Monthly team events
- Opportunity to continue to learn in a supportive environment
- Career advancement opportunities

**Job Requirements**

**Experience and Skills Requirements**

- Actively pursuing a bachelor's degree (ideally in Computer Science with some level of Business focus)
- Strong communication skills (both written and verbal)
- Eager and willing to learn
- Strong teamwork skills
- Enjoy problem solving

**Citizenship Requirement**      Canadian & Permanent Residents Only
