<b>Job Description</b>	

**Job Title: IT Security Intern**

**Job ID:** 1002397

Learning begins in the classroom but there's no better place to gain real-world experience than with Stantec. Interns are an integral part of our teams, working to solve some of the world's most complex challenges.

As an intern, you'll work alongside our experienced practitioners and with our clients and communities. This hands-on experience will equip you with practical skills, build your network, and provide opportunities that set you up for success.

### **Your Opportunity**

We are seeking a motivated and detail-oriented intern to join our team. This is an excellent opportunity for a Computer Science student to gain hands-on experience in a global IT security team and apply your technical skills to solve real-world business challenges. As an intern, you will work closely with senior members of our IT Security team to gather, analyze, report, and review cybersecurity information and threat intelligence which will help protect the organization and delivers measurable value.

### **Your Key Responsibilities**

- Assist in analyzing information and identifying potential solutions to address security challenges.
- Support the design, testing, and implementation of security controls.
- Collaborate with cross-functional teams to collect and document project requirements.
- Conduct research on emerging technologies, best practices, and industry trends to support requests and recommendations.
- Prepare and deliver presentations, reports, and technical documentation.
- Troubleshoot technical issues and provide insights to improve existing systems or processes.
- Participate in meetings and contribute to team goals and objectives.

Typical office environment working with computers and remaining sedentary for long periods of time.

This description is not a comprehensive listing of activities, duties or responsibilities that may be required of the employee and other duties, responsibilities and activities may be assigned or may be changed at any time with or without notice.

### **About Stantec**

Stantec is a global leader in sustainable engineering, architecture, and environmental consulting. The diverse perspectives of our partners and interested parties drive us to think beyond what's previously been done on critical issues like climate change, digital transformation, and future-proofing our cities and infrastructure. We innovate at the intersection of community, creativity, and client relationships to advance communities everywhere, so that together we can redefine what's possible.

**Pay Range:**

- Locations in Lower Mainland - \$21.56-29.59/hr

**Pay Transparency:** In compliance with pay transparency laws, pay ranges are provided for positions in locations where required. Please note, the final agreed upon compensation is based on individual education, qualifications, experience, and work location. At Stantec certain roles are bonus eligible.

**Benefits Summary:** Regular full-time and part-time employees (working at least 20 hours per week) will have access to health, dental, and vision plans, a wellness program, health care spending account, wellness spending account, group registered retirement savings plan, employee stock purchase program, group tax-free savings account, life and accidental death & dismemberment (AD&D) insurance, short-term/long-term disability plans, emergency travel benefits, tuition reimbursement, professional membership fee coverage, and paid time off.

Temporary/casual employees will have access to group registered retirement savings plan, employee stock purchase program, and group tax-free savings account.

The benefits information listed above may not apply to union positions because benefits for such positions are governed by applicable collective bargaining agreements.

## Job Requirements

### Your Capabilities and Credentials

- Self-motivated with the ability to work collaboratively in a team environment.
- Strong analytical and problem-solving skills with a focus on delivering innovative solutions.
- Proficiency in one or more programming languages (e.g., Python, Java, JavaScript) and familiarity with frameworks or tools is an asset.
- Knowledge of software development life cycle (SDLC) and system design principles is an asset.
- Excellent communication and interpersonal skills
- Eagerness to learn and adapt to new tools, technologies, and methodologies.
- Basic understanding of cloud platforms (e.g., AWS, Azure, Google Cloud) is a plus
- Basic understanding of Data analytics tools is a plus.

### Education and Experience

- Currently pursuing a degree in Computer Science, Information Technology, or a related field, and having completed your second or third year of study.

**Citizenship Requirement**                    N/A
