Job Description	

ABOUT THE COMPANY

ConeTec is a world leader in specialized, high-end site investigations and works as a contractor within the industries of infrastructure, construction and mining. The Data Analyst Co-op is responsible for efficient and accurate data interpretation, analysis, and reporting. The Data Analyst co-op works closely with other members of the Data Team, QA/QC, and personnel in the field to coordinate and implement high quality data acquisition, management, processing, and reporting procedures. This position is an excellent platform to learn and develop in-depth knowledge around high-end geotechnical, marine, and tailings site characterization projects.

ROLES, RESPONSIBILITIES & EXPECTATIONS

Technical

- Work closely with the research and technology development teams.
- Help utilize statistical and machine learning techniques to interpret ConeTec's data.
- Help implement machine learning models into ConeTec's data processing software.
- Organize and upload data to ConeTec's database.
- Work to upgrade their skills on an ongoing basis.
- Contribute to and promote a respectful work environment and participate in effective communication.
- Effective collaboration with others inside and outside the department.

Health & Safety

- Identify with and respect ConeTec's safety culture, first and foremost.
- Ensure proper preparation and knowledge of all necessary safe operating procedures before beginning any job.
- Report any safety-related incidents, infractions, or near misses to the Manager and the HSE Officer, immediately.
- Always know and follow the incident reporting protocol.

Job Requirements

Education requirements:

- Pursuing a degree in Computer Science, Engineering, Mathematics, Statistics, or another quantitative discipline.

Experience requirements:

- Understanding of machine learning concepts and theory.
- Experience with statistical analysis and machine learning modeling tools such as Python, R, MATLAB.
- Experience with SQL and a deep learning framework such as Keras would be a plus.
- Basic knowledge of JavaScript/typescript/C# would be an asset (If you have any side projects in JavaScript/typescript/C#/python, do share the git repo).

Soft skills requirements:

- Must possess strong work ethic and represent the company in a professional manner.
- Detail oriented and holds themselves to a high standard of quality.
- Must be able to establish and maintain effective working relationships.
- Must be responsible and work well independently or in a team setting with minimal supervision.
- Must enjoy performing a wide variety of duties and be able to manage multiple tasks and priorities.
