### **Job Title: Software Developer Co-op**

#### **About this opportunity:**

We are developing and supporting several tools (commercial, internal and open source) to support our large Ericsson R&D community. We are looking for software developers for 4-8 months internship, as DevOps engineer.

#### **What you will do:**

- The role covers the full application lifecycle from requirements, design, development, test, deployment, automation, and operation.
- In this Role you will work within an Agile team, as a full fledged member, with a wide array of technologies, which may include Java, Spring, Angular, Python, micro-services, Git, Jenkins, Maven/Gradle, Docker, test automation framework
- This is a great opportunity to work with Agile & DevOps, following industry best practices and tools.

#### **Job Requirements**

##### **You will bring:**

- Education: Second+ year student in Engineering/Computer Science or equivalent
- Team Player
- Ability to work independently
- Quality oriented and finding a balance between speed and quality of work.
- Taking initiative and responding quickly to the needs of the customers & stakeholders
- Going above and beyond the basic job requirements.

- Innovative and challenges ideas & practices constructively, striving to continuously improve
- Good communication skills
- Good written and spoken English
- Good knowledge of Java
- Good knowledge of Linux
- Knowledge of relational databases
- Version control tool (Git)
- Web Services (REST).
- Spring framework
- Front-end technologies: HTML, CSS, JavaScript, TypeScript, Angular Troubleshooting

**Citizenship Requirement** N/A
