<b>Job Description</b>	

Marsh is a global leader in insurance broking and risk management. In more than 130 countries, our 45,000 colleagues work with clients of all sizes to define, design, and deliver innovative solutions to better quantify and manage risk. We offer risk management, risk consulting, insurance broking, alternative risk financing, and insurance program management services to businesses, government entities, organizations, and individuals around the world.

Since 1871, clients have relied on Marsh for trusted advice, to represent their interests in the marketplace, make sense of an increasingly complex world, and help turn risks into new opportunities for growth.

Join Marsh's Early Career Summer internship, a 16-week experience where interns will work directly with senior advisors and brokers to help clients identify risks to their people, property, or financial and strategic goals, offering hands-on experience in risk management and insurance broking. As part of our program benefits, you will have a vibrant cohort community and dedicated program team to provide learning and development opportunities, a mentorship program, exposure to senior leaders, and valuable networking opportunities.

Upon completing the summer internship, exceptional juniors may be offered an offer to join our full-time program at Marsh.

#### **WHAT CAN YOU EXPECT?**

**At Marsh**, our teams are integral in helping clients manage and reduce risks in real-world scenarios like medical pandemics, music festival liabilities, and financial scandals. As part of our team, you'll collaborate with clients to assess risks, build relationships with insurance companies, and secure competitive insurance quotes using your negotiation skills. By doing this, you'll make a significant impact in helping our clients minimize their overall risk costs in today's world.

You'll be aligned to a specific business group and work hands-on on an account team to make an impact.

#### **A TYPICAL DAY COULD INCLUDE:**

- Exposure to diverse client accounts ranging from small local businesses to Fortune 500 companies

- Work alongside colleagues on high-level accounts and learn from our Senior Leaders, Account Executives, and Brokers:
- Shadowing, creating and/or expanding benchmarking reports
- Preparing presentations for client and or prospect/meetings
- Developing internal and external renewal strategy documents
- Collaborate with other interns across regions on business projects and through virtual learning communities
- Building a network of colleagues at all levels of the organization

#### **WHAT WE VALUE**

- Ability to work in teams and cultivate relationships
- Analytical thinking and problem-solving
- Flexibility and strong attention to detail
- Intellectual curiosity
- Excellent communication and interpersonal skills
- Demonstrated leadership or initiative at school, work and/or community

#### **WHAT'S NEXT?**

Once your application is received, we will review your application and resume. You will be invited to complete a recorded online interview if you meet our qualifications. If selected as a finalist, you will be invited to a virtual Open House called Reverse Business Interviews, where you can learn more about our career pathways and potential business placements. Following reverse interviews, you will attend a virtual interview day, and our program team will match those selected for an offer to a business group based on your preferences and role availability.

The applicable hourly rate for this role is \$30.00.
