Job Description	

Ready to turn complex technical challenges into concrete success for customers?

Do you excel in front-end technologies and want to apply your technical expertise to consultancy while addressing large-scale business challenges? Coveo is looking for a Software Developer Intern to join our Professional Services team. Your mission? Work closely with our customers to understand their needs and deliver tailored solutions. You'll be actively involved in every step of the process, from design to production. You'll do more than just code, you'll be deploying and implementing your work with the customer.

Our Professional Services team collaborates closely with Coveo clients to ensure a seamless integration, and configuration of our highly customizable AI Cloud SaaS Solution into their environment. They work with prestigious customers such as Nespresso and Metro.

Your impact, day to day:

- Engage actively in daily stand-up meetings to discuss progress, roadblocks, and plans. Collaborate with team members to ensure alignment and effective communication.

- Tackle the team's backlog of tasks, conduct bug fixes and work on ongoing projects.
- Support our internal tooling project, each contribution you make here has a direct impact on the productivity of your colleagues.
- Attend client meetings, provide updates on your progress, discuss next steps and answer any questions.
- Work on Coveo's own in-house build libraries (*Atomic* and *Headless*) to enhance customer journeys and implement components directly in our clients' environment.
- Meet with your mentor to get feedback on your recent work and take the initiative to shadow their activities.
- You have a check-in meeting with your mentor to get some feedback on what you have been working on and take the opportunity to shadow what they are doing.

Job Requirements

The Essentials:

- You are currently studying computer science or software engineering in your third or fourth year in a Bachelor's degree or higher in the province of Québec.
- You are able to work from our office 2 days a week. Our hybrid work model offers flexibility, you can benefit from face-to-face learning from your team on office days while home days allow you to focus and complete complex work.
- You are legally entitled to work full-time in Canada for the duration of the 15 week internship.

Think you've got what it takes? Let's see!

- You have at least one internship experience in a front-end or full-stack role: you're ready to build on that experience and take your skills to the next level.
- You have excellent frontend coding skills: you have experience in languages like JavaScript, TypeScript, React, Angular, Python, or Java.
- You've got strong communication skills: you will meet with customers from around the world.
- You excel at problem-solving and are always looking for ways to improve processes with fresh ideas and innovative approaches.
- You are interested in a consultancy role.
- You strive to grow and aren't afraid to ask questions.

Citizenship Requirement N/A
