<b>Job Description</b>	

## **What you'll do:**

As a Software Developer Intern, your key area of responsibility will be adding functionality and features on the front-end to our customer facing website. You will need to work closely with Product, UX, and other developers.

## **The opportunity**

- 8-12 month work-term beginning September 2025.
- Full-time, paid internship: Monday - Friday, 37.5hrs/week.
- Your first week at Geotab begins with 'GEO Launch' - a one-week Employee Orientation. Click [here](#) to learn more!
- Learn more about the Geotab Campus Program [here](#).

## **How you'll make an impact**

- Define, design, and implement new software applications in collaboration with other members of the development and technical

teams, based on industry standards and best practices.

- Translate application storyboards and use cases into functional applications.
- Perform Test-Driven and Security-Driven Development.
- Conduct comprehensive code reviews and ensure that coding standards are followed.
- Help maintain code quality, organization and automation.
- Perform maintenance programming for existing applications.
- Consider the functionality, performance, scalability, reliability, realistic implementation schedules and system architecture for each assignment.
- Provide recommendations for improvements in the overall development process.

### **Job Requirements**

## What you'll bring to the role

- Working towards a Diploma/Degree specialization in Computer Science, Software Engineering, or a related field.
  - Experience programming with React, JavaScript, CSS and HTML.
  - Experience in Python, TypeScript, ES6, Vite, GO, Google Compute Engine, Google BigQuery are an asset.
  - Working knowledge of Cloud computing experience is an asset.
  - Excellent written and oral communication skills.
  - Able to work well under pressure and respond to fast changing priorities and deadlines.
  - Highly organized and able to manage multiple tasks and projects simultaneously.
  - Strong analytical skills with the ability to problem-solve to well-judged decisions.
  - A strong team-player with the ability to engage with all levels of the organization.
  - Technical competence using software programs, including, but not limited to, Google Suite for business (Sheets, Docs, Slides).
- If you got this far, we hope you're feeling excited about this role! Even if you don't feel you meet every single requirement, we still encourage you to apply.

**Citizenship Requirement**                  N/A
