Job Description	

Rivian & Volkswagen Group Technologies Description

Rivian and Volkswagen Group Technologies is a joint venture between two industry leaders with a clear vision for automotive's next chapter. From operating systems to zonal controllers to cloud and connectivity solutions, we're addressing the challenges of electric vehicles through technology that will set the standards for software-defined vehicles around the world.

The road to the future is uncharted. By combining our expertise across connectivity, AI, security and more, we'll map a new way forward. Working together, we'll create a future that's more connected, more intelligent, more sustainable for everyone.

THIS IS WHAT YOU WILL DO:

- Design and develop Rivian and Volkswagen technologies mobile applications and its associated SDK for mobile devices on Android OS and iOS
- Develop sample and demo applications making use of our technology
- Collaborating with the product and design team to define app features.
- Ensuring quality and performance of application to specifications.
- Identifying potential problems and resolving application bottlenecks.
- Fixing application bugs before final release.
- Maintaining the code and atomization of the application.
- Designing and implementing application updates.
- Upgrading to Android/iOS Developer Requirements
- Grow your skills with continual learning, workshops, conferences and talks

THIS IS WHERE YOU'LL WORK:

Department: Connected Experiences Software Team

Location: Vancouver

Job Requirements

THIS IS WHAT YOU NEED:

- Must be currently pursuing a bachelors, masters, or PhD degree at an accredited university.
- Actively pursuing a degree or one closely related in computer science or similar.
- Familiarity with one of the following languages Kotlin, Java or Swift.
- Ability to use the Android Studio and Xcode, including the Android/iOS SDK, with ease.
- Excellent coding and proofreading skills.
- Top-notch teamwork and communication skills.
- Knowledge of Android/iOS design principles and application interface guidelines.
- Familiarity with the best in class Software development practices.
- Familiarity code versioning tools including Git, Bitbucket and others.
- Familiarity with push notifications, APIs and cloud messaging.
- Experience with continuous integration.
- Excellent inter-personal skills with the ability to collaboratively work with and influence cross-functional

Citizenship Requirement N/A
