EDUCATIONAL RECOMMENDATIONS

Currently enrolled in a Bachelor's or Master's program in Engineering, Computer Science, Data Science, Business Analytics, Information Systems, or a related field.

Your responsibilities

You will:

- Support daily operational activities and contribute to continuous process improvements.
- Analyze data using Excel and Power BI to create dashboards, reports, and actionable insights.
- Develop and maintain automated reporting tools to improve visibility of performance metrics.
- Contribute to forecasting and planning initiatives, including Demand Planning solutions.
- Collaborate with cross-functional teams on data-driven and AI-enabled projects.

More information

Some of our benefits for students in Canada:

- Flexible and hybrid working schemes to balance work and life

- Professional development events and networking opportunities
- Campus perks designed to make your student experience enjoyable and social, such as access to an onsite cafeteria, free employee parking, complimentary fitness centre, and sports facilities (volleyball, basketball, pickleball courts, ping pong, and employee leagues)
- Well-being programs, including Personal Support Service 24/7 - a confidential support channel open to all Nokia employees and their families in challenging situations
- Opportunities to join Nokia Employee Resource Groups (NERGs) and connect with people who share your passions and values
- Employee Growth Solutions, mentorship programs, and coaching support for your career development
- A learning environment that fosters both personal growth and professional development - for your role and beyond

Disclaimer for US/Canada

Nokia maintains broad annual base salary ranges for its roles in order to account for variations in knowledge, skills, experience and market conditions, and with consideration to internal peer equity. Check the salary ranges in the job info section for this role.

All North America job posts will post for a minimum of 3 calendar days and up to 180 days or until candidate/s identified.

Job Requirements

Your skills and experience

You have:

- Foundation in AI/ML concepts through coursework or practical projects.
- Skills in Power BI for dashboard creation, data modeling, or reporting.
- Strong Excel capabilities, including advanced formulas, pivot tables, and data analysis.
- Experience using Microsoft SharePoint for collaboration and information management.
- Strong analytical, problem-solving, and organizational skills, with the ability to work independently and in team settings.

Nice to have:

- Experience with Python, SQL, or similar data tools
- Familiarity with operational workflows in a technology-driven environment
- Prior internship or project experience in operations, analytics, or consulting

Citizenship Requirement N/A
