Job Description	

Job Title: Engineering Applications - Engineering Services Student

Job ID: R127249

As an Engineering Applications and Technology Management Student, you will provide technology support for a team of engineers and designers related to the use, configuration and setup of several applications and systems used during the development of the engineering projects. You will also work on continuous improvement initiatives to transform how we work with technology such as minimizing repetitive manual tasks while we maintain the quality of work we produce.

This role will help you gain exposure to the overall process of project design development and the management of engineering technology and systems which supports the day-to-day operation of the engineering and related teams. You will be part of a grassroots team that is still developing processes to ensure the best technology is available and functioning for the team that develops projects designed to ensure safe daily operations and growth for tomorrow of our Saint John Refinery and several other Irving Oil sites.

Your Skills:

- Safety as-a-way-of-life mindset
- Strong verbal and effective communication skills
- Ability to manage multiple priorities
- Ability to collaborate with others in a team environment
- Self-motivated; ability to work independently
- Working knowledge of Microsoft Office suite of apps
- Natural interest in technology and software

What We Offer:

- Professional Development - Student focused learning & development sessions, mentorships and networking events
 - Student Benefits - Housing allowance, co-op fee reimbursement and parking allowance for qualifying candidates.
 - Work Environment - Work in our beautiful home office building with access to a fitness facility, onsite nurse, and a café
 - Wellness Support - With 24/7 access to our Employee & Family Assistance Program
 - Volunteer and donation matching program - Choose when and where to make an impact with a paid volunteer day, company volunteer opportunities, and a donation matching program
- Irving Oil is committed to supporting a diverse and inclusive work environment. We thrive on the good energy that's created when our people from different backgrounds, identities, cultures and experiences share their unique perspectives. Diversity is key to our success and inclusion is everyone's responsibility.*

Job Requirements

Your Experience:

- Currently enrolled in a Computer Engineering, Information Technology or Computer Science program
- Must have completed at least one year of post-secondary education and be returning to school

Citizenship Requirement N/A
