Job Description	

IT Co-op Opportunities - Network Administration, Software Development, IT Support & Help Desk

Location: Morden, MB (On-Site) | Full-Time, Paid Co-op

Are you a student passionate about technology and eager to gain hands-on experience in a dynamic and innovative IT environment? Join our team for an exciting co-op term where you'll contribute to real projects, collaborate with experienced professionals, and build the skills that will shape your future career.

We're currently offering co-op opportunities in the following areas:

? Network Administration

Gain experience in maintaining, securing, and optimizing enterprise networks. You'll assist with configuring hardware, monitoring system performance, and troubleshooting connectivity issues to ensure seamless operations.

? Software Development

Work alongside our developers on a variety of software solutions. You'll contribute to coding, testing, debugging, and enhancing internal tools or customer-facing applications using modern development practices.

? IT Support & Help Desk

Be the first point of contact for technical issues across the organization. Learn to diagnose and resolve hardware and software problems, support onboarding/offboarding processes, and help ensure a positive user experience.

What You'll Do

- Support day-to-day operations in your assigned area
- Participate in team meetings, knowledge sharing, and documentation
- Work on projects that contribute to real business outcomes
- Learn and grow with guidance from experienced mentors

Why Join Us?

- Gain meaningful, real-world experience in a supportive and collaborative environment
- Contribute to projects that make a difference
- Develop technical and professional skills that will serve you throughout your career
- A culture that values innovation and continuous improvement

Job Requirements

What We're Looking For

- Currently enrolled in a Computer Science, Information Technology, Networking, or related program
- Strong communication and problem-solving skills
- A team player with a willingness to learn
- Experience with relevant tools or systems (e.g., Windows, Linux, Office 365, scripting, or networking protocols) is an asset

Citizenship Requirement N/A
