<b>Position Type</b>	Co-op Position
<b>Job Location</b>	Ottawa, ON
<b>Country</b>	Canada
<b>Duration</b>	8 or 12 months
<b>Salary Currency</b>	CAD
<b>Salary</b>	Salary Not Available, 0 Major List
<b>Job Description</b>	

### **Location**

This is a hybrid position. You must be in the Ottawa, Canada office, at least three days a week.

### **About the Team**

We are a group of **generalist software engineers with a C++ focus**, working together to democratize the creation and extension of computations in the Maestro platform. We are a fast-moving, collaborative team, and each of us is passionate about what we do. Would you like to join us on the road to something new, big, and exciting? On our team interns work as integral members of the core team. We provide a collaborative and supportive environment for the future engineers in our midst. If you have the skills below and you want to learn and grow with us - please talk to us!

**This is a full time, 8 or 12-month position, starting January 2026.**

**To be eligible for a Co-op or Intern position at Kinaxis, you must either be currently enrolled in full-time education or, if you are a recent/upcoming graduate, your graduation date must be within 12 months of the placement end date.**

### **What You Will Do**

Use a variety of modern technologies, and work across the software development lifecycle from development through build and into testing and test automation. You will:

- Develop high quality, well-crafted code that delivers value to our customers
- Test the work of other team members and develop automated tests
- Collaborate with developers and testers on your team, and other teams
- Support a variety of special projects as needed

## **Job Requirements**

### **What We Are Looking For**

- 3<sup>rd</sup> year student in Computer Science, Software Engineering, or an equivalent program
- Excellent communication and collaboration skills
- Passion for writing well-crafted, maintainable, robust, unit-test covered code
- Experience with data structures, algorithms, multi-threading, and other core software concepts
- Ability to quickly grasp technical ideas
- Strong problem solving and analytical skills
- A willingness to learn new technologies and adapt to our processes

### **Things That Would Definitely Help**

- Prior development experience with C++
- Practical Knowledge of C++ STL containers
- Development experience with Java/C#, and/or Typescript
- Experience with Network programming
- Understanding of Cloud Platforms and Kubernetes

**Citizenship Requirement**                    N/A

## **APPLICATION INFORMATION**

**Application Procedure**                    Through Employer Website

### **Special Application Instructions**

Please click the "I intend to apply to this position" button on SCOPE and also submit your application via the employer's website.

Application Link: <https://careers-kinaxis.icims.com/jobs/33861/co-op-intern-developer%2c-analytics-engine%2c-computation-as-a-service/job>

Applications are accepted on a rolling basis and the posting may be expired at any time by the employer as submissions are received.

Students should submit their applications as soon as they are ready.
