Job Description	

Kick-start your career with TELUS' Engineering, Technology and Business Co-op

Are you curious about state-of-the-art technology? Passionate about starting your career in an environment that fosters innovation and enables you to make a real difference?

Join our Engineering, Technology and Business Co-op to gain hands-on experience alongside industry leading mentors. Our Co-op is designed to expand your technical toolbox, grow your professional network, and bring your unique ideas to life. You will have an opportunity to build your brand within the organization and lay a foundation for your future career with us.

Cybersecurity Solutions

- Develop pioneering cybersecurity and privacy solutions to protect Canadians from the full spectrum of online threats
- Build skills in cybersecurity and threat assessment, software DevOps and security product development
- 5G and Wireless Networks
- Advance Canada's largest and fastest wireless network as we evolve to a hyper-connected 5G world
- Work on macro sites, in-building networks and Wi-Fi; and learn about wireless IP access design, wireless core network design, data analytics, virtualization and DevOps.

Job Requirements

What you will bring

Required education and experience:

- You are currently enrolled in your 3rd+ year of an accredited Engineering, Computer Science or Business University program.
- Minimum of one term or summer internship completed

Required skills and abilities:

- Curious and passionate about learning new technologies
- Have a deep commitment to making a difference for our customers
- Demonstrate leadership in the way you approach your work, as shown through your academic, volunteer/community and extracurricular activities
- Possess excellent interpersonal and communication skills
- Have demonstrated the ability to work in a team environment
- Are self-motivated and have a strong sense of personal initiative and ownership
- Are creative and innovative in your thinking
- Have strong analytical and problem-solving skills
- Can see "the big picture" while also being detail oriented
- Thrive in a high-performing, fast-paced, large and sometimes ambiguous environment
