Job Title: Co-op Winter 2026 - Software Engineering, TacCIS Solutions - 8-12 Months

Job ID: REF843K

Company Description

At General Dynamics Mission Systems-Canada, our focus extends beyond engineering technology solutions-we are dedicated to cultivating careers. If you seek a purpose-driven career solving some of the world's most critical problems, alongside some of the brightest engineering minds, your application is welcome. Join a community where your unique perspective propels innovation.

Why Join Us?

- Realize your Impact:** Our work enables customers to successfully navigate missions across diverse domains of operation. Your fresh perspectives and ideas have the power to shape real solutions, influence projects and drive meaningful change.
- Kick-start your Career:** Immerse yourself in various industry facets, gaining insights that span from cutting-edge technology to project management. Elevate your resume with a distinguished company to set the stage for a rewarding career, while paving the way for future full-time opportunities within General Dynamics.
- Grow your Network:** Work side by side with talented professionals who are excited to share their experience and develop your skills. Have meaningful interactions, ask questions, and build relationships that can lead to lasting industry connections.
- Balance your Life:** We have On-site and Hybrid positions, this is often dependant on the nature of your role. We offer a variety of options for your work schedule which includes compressed work week options, flexible start times and shut down periods. We champion work-life balance, ensuring you have time for personal endeavors and your professional aspirations

Job Description

Ready to level up your coding skills and join the ultimate tech adventure? Buckle up for an epic ride as a co-op student at TacCIS Solutions! Here's your mission, should you choose to accept it:

1. Become a wizard of ARM processors and microprocessors - it's like coding for Raspberry Pi, but with a military-grade twist!
2. Transform ordinary military vehicles into high-tech communication powerhouses. Think "Pimp My Ride" meets "Call of Duty"!
3. Dive into the world of intercoms and networking products. You'll be the mastermind behind keeping our troops connected in

- style.
4. Channel your inner MacGyver to retrofit tanks and armored vehicles with cutting-edge comms gear. Who said tanks can't be trendy?
 5. Flex your coding muscles on projects cooler than a polar bear's toenails. Your code will literally drive tanks and command posts!
 6. Join our hybrid work environment - toggle between your home base and our top-secret (okay, not really) electronics lab. It's like having two secret lairs!
 7. Be part of a team that's always got your six. Together, we'll conquer the battlefield of technology and keep our armed forces at the top of their game.

Are you ready to turn your coding skills into a force to be reckoned with? Join us, and let's make military tech fun again!

Additional Information

We believe the unique contributions of each of our colleagues are key in our ability to drive innovation. By fostering a culture of belonging, encouraging idea sharing at all levels, and reinforcing the very real impact of what we do, we offer an environment where everyone can take pride in their work. If you require accommodation during any stage of the application process, please contact Human Resources via recruitment@gd-ms.ca.

Job Requirements

Qualifications

- Currently enrolled in a Bachelor's degree program in Computer Science, Software Engineering, Electrical Engineering, or Computer Engineering.

It is a requirement that General Dynamics Mission Systems-Canada be registered with the Canadian Controlled Goods program and that all of its workforce be security assessed. Successful applicants must meet all applicable security requirements, including but not limited to the ability to obtain and maintain a Canadian government security clearance. Applicants may be required to meet additional security requirements in order to gain access to technical data, classified areas or information that is subject to international regulations. You must be eligible to work in Canada.

Citizenship Requirement N/A
