#### **DevOps Engineer with Java Co-op**

Inspire the World, Create the Future

**Do you believe in the power of technology to help shape a brighter future and a stronger global community? Are you inspired by the possibilities? Are innovation, camaraderie, and the pursuit of excellence part of your innate drive? Then you've got what it takes to succeed at Samsung.**

The Samsung R&D Canada Knox Solutions group is looking for a co-op student position in DevOps with Java knowledge. The role involves collaborating with the DevOps team to automate operations, build and maintain deployment tools, troubleshoot issues, and develop new Java functionalities.

#### **What You'll Do**

- Collaborate with our DevOps team to automate and streamline our operations and processes
- Build and maintain tools for deployment, monitoring, and operations
- Troubleshoot and resolve issues in our development, test, and production environments
- Develop new functionalities using Java based on requirements
- Participate in code reviews to maintain a high-quality codebase

#### **Additional Information:**

- \$20-\$27/hr (Co-Op pay will be determined based on a number of factors and may vary depending on job-related knowledge, completed study terms, relevant skills, and experience)

- 8 months (May-December)
- Hybrid (Monday-Thursday in office, located in Vancouver)
- Interviews will be 30-45 minutes with selected candidates

## **Job Requirements**

### **What You'll Bring**

- Currently pursing Bachelor's or Master's degree in Computer Science or Engineering
- Motivated self-starter who loves solving problems, digging deep and pushing for technical excellence
- Familiarity with Java, Maven, SpringBoot, comfortable developing new functions/methods based on requirement
- Knowledge of Linux fundamentals skill
- Familiarity with Cloud Environments such Amazon Web Services (AWS)
- Familiarity container knowledge and kubernetes
- Understands the principles of Continuous Integration/Continuous Deployment (CI/CD)
- Excellent communication skills both written and verbal
- Ability to work with multiple teams in a rapidly changing environment

### **Bonus / Nice to have**

- Proficient in using Linux commands, with the capability to troubleshoot and rectify issues
- Experience with containerize application and operating application in Kubernetes
- Exposure to CI/CD and related tooling such as Jenkins, Github Actions (edited)

**Citizenship Requirement**                    N/A

## **APPLICATION INFORMATION**

**Application Procedure**                    Through UBC Science Co-op

**Cover Letter Required?**                    Yes

**Address Cover Letter to**                    Hiring Manager
