<b>Job Description</b>	

#### **Software Developer Intern (Konek)**

At Interac, we design and deliver products and solutions that give Canadians control over their money so they can get more out of life. But that's not all. Whether we're leading real-time money movement, driving innovative commerce solutions like open payments for transit systems, or making advancements in new areas like verification and open banking, we are playing a key role in shaping the future of the digital economy in Canada.

Want to make a lasting impact amongst a community of creative thinkers, problem solvers, technical gurus and high-performance application developers? We want to hear from you.

Reporting to the Practice Leader, Development, as a Software Developer on our backend services team, you'll play a key role in building and enhancing the Konek platform - a critical part of Interac's product ecosystem. You'll be responsible for developing new features, improving existing functionality, and increasing unit test coverage to ensure high-quality, reliable software.

This role offers a unique opportunity to work with cutting-edge technologies and integrate AI into the development lifecycle. You'll help automate unit testing and code review processes using AI-powered tools, driving efficiency and consistency across the team.

#### **You'll be responsible for:**

- Working with lead and senior development leaders to understand business requirements and translate them into design specifications and code
- Design, develop, and maintain backend services for the Konek application.
- Collaborate with cross-functional teams to define, design, and ship new features.

- Enhance unit test coverage and ensure code quality through automated testing.-
- Leverage AI tools to streamline code reviews, identify bugs, and optimize performance.
- Participate in Agile ceremonies and contribute to sprint planning, retrospectives, and daily stand-ups.
- Continuously explore and adopt new technologies and best practices to improve development workflows.

**You bring:**

- Currently completing an undergraduate degree from a creditable Canadian institution with a focus on computer science, software engineering, AI/Robotics or similar field
- Experience and understanding of programming languages, databases, code management tools and unit testing
- Proficiency in backend development using languages such as Java, Kotlin, or Node.js
- Experience with cloud platforms (preferably AWS) and containerization (Docker, Kubernetes)
- Familiarity with unit testing frameworks and CI/CD pipelines
- Interest or experience in using AI tools for development (e.g., code generation, static analysis, test automation)
- Strong problem-solving skills and a passion for learning and innovation
- A self-starter mindset with a drive for continuous learning - you have a natural ability to pick up new technology you enjoy solving problems while learning about new tools, technology, applications and how they work
- Confidence in your ability to communicate verbally and written in a detailed and impactful way
- Although not required, you have some familiarity or previous experience with the following:
  - Prior co-op experience in similar roles is an asset (Full stack Developer, Software Development Intern)
  - Understanding Agile methodologies and processes.
  - Knowledge of Security in web platform such as WebAuthN, OAuth2 etc.
  - Experience with devops tools and processes.
  - Self-motivated to learn new technologies and applications.
  - Excellent teamwork and collaboration skills along with strong analysis and problem-solving skills

**Workstyle:** Hybrid (3 days on-site)

**Location:** Toronto

**Term:** September to December 2025

**Duration:** Monday - Friday

*Interac requires employees to complete a background check that is completed by one of our service providers. We use this service to complete the following checks:*

- Canadian criminal record check;
- Public safety verification;
- Canadian ID cross-check;
- 5-year employment verification;
- Education verification; and
- If applicable, Credit Inquiry and Social Media Check

**How we work**
