### **Job Description**

#### **Software Engineer Internship - Vancouver, BC**

- 12 weeks in Summer 2026
- On-site at 103-4338 Main Street, Vancouver, BC, V5V 3P9

#### **About OBD Experts**

Founded in 2009, OBD Experts develops software that reads and interprets vehicle data from passenger cars and trucks. Our clients use this data to monitor and manage their own or their customers' fleets. Key parameters include VIN, fuel levels, odometer readings, door status, and EV battery metrics.

We are currently scaling our SaaS product, **Odomatic**, with ambitious growth plans. As we expand, we are looking for a motivated **Software Engineer Intern** to support our team in research, software releases, testing, and customer technical support.

#### **Responsibilities**

- Research and integrate new vehicle parameters into our software.
- Aid in software releases, including testing, and validation.
- Provide support to customers including investigating usage and developing customer specific support plans.
- Contribute to firmware and embedded software development for connected products.
- Collaborate with the team to enhance and scale our SaaS platform.

#### **Why Join Us?**

- Be part of a **fast-growing company** with a vision for exponential expansion.
- Gain hands-on experience in **automotive software and embedded systems**.
- Learn about **SaaS**.

#### **Job Requirements**

**Requirements**

- **Legally authorized to work in Canada** (Canadian citizen or permanent resident).
- Living in the Vancouver area
- Currently studying at a Canadian University or College for a post-secondary degree in Electrical or Computer Engineering, Computer Science, or Software Engineering.

**Nice-to-Have Skills**

- Knowledge of C programming language.
- Experience with **peripheral drivers** (CAN, Ethernet/DolP).
- Interest in **automotive engineering**.
- Experience writing automation scripts or tooling in **Python** (e.g., test harnesses, data parsing, CI helpers).
- Experience with embedded debugging tools and basic electronics.
- Experience with version control and collaboration tools (Git, GitHub).
- Enthusiasm for learning new protocols, hardware platforms, and development tools.
- Knowledge of **Amazon AWS**.

**Citizenship Requirement**      Canadian & Permanent Residents & Refugees Only

## APPLICATION INFORMATION

**Application Procedure**      Through Employer Website

**Cover Letter Required?**      Yes

**Address Cover Letter to**      Belle Tran

### Special Application Instructions

#### Application Process

Interested candidates are invited to submit their resume and a cover letter detailing their qualifications and experience to Belle Tran at belle@obdexperts.com by Feb 28th, 2026. We thank all applicants for their interest; however, only those selected for an interview will be contacted.

**Please click the "I intend to apply to this position" button on SCOPE and also submit your application via the employer's email.**

**Applications are accepted on a rolling basis and the posting may be expired at any time by the employer as submissions are received.**

**Students should submit their applications as soon as they are ready.**
