Job Description	

Job Title: Software Developer Intern

At Vendasta, we're leading the AI revolution from right here in Saskatoon-and beyond. We work together to empower our partners and customers through our AI-powered customer acquisition and engagement platform to help them get more customers-and keep them. We're proud to share that Vendasta has officially been named one of **Canada's Most Admired Corporate Cultures for 2025!**

Software Developer Intern Developers at Vendasta get to jump right into the action during this **16 month internship starting in May 2026!** They are valuable contributors to the team and get the opportunity to apply their skills on our ongoing projects. They work in teams, working with Product Managers and Designers, to ideate, build, test, deploy, and manage operations of new features and products. Our Research and Development department works hard to help developers learn, grow, and experiment while at work, offering events like in-house Hackathons during regular hours. We have a culture that gives all developers opportunities to learn from and teach other developers.

The ideal candidate will demonstrate that they are bright and can tackle tough problems, while being able to communicate their solution to others. They are creative and can mix technology with the customer's problems to find the right solution. Lastly, they are driven and will motivate themselves and others to get things done.

About Vendasta:

We help businesses get more customers. And keep them. Vendasta is an AI-powered customer acquisition and engagement platform for SMBs and the partners who support them, streamlining marketing, sales, and operations through intelligent AI employees, automation, and real-time actions and insights. From creating awareness to nurturing lasting customer relationships,

Vendasta offers a suite of solutions with AI assistants that streamline every stage of the customer journey. By combining a business's unique data with AI and automation, Vendasta simplifies marketing, sales, and operations, eliminating the need for multiple disjointed systems.

Perks:

Join the Vendasta family, where your happiness and health are our top priorities! Dive into a world where competitive health benefits meet flexibility with flex time and an annual work-from-anywhere policy. Embrace the opportunity to grow with us through our Employee Options Program and savour every bite in our cafeteria, delighting in daily snacks, and unwinding with catered Friday lunches at our offices. Fuel your ambition with education reimbursement, in-house learning, and an array of leadership development programs, all nestled within a culture brimming with Drive, Innovation, Respect, and Agility. Engage your heart in community events and volunteer opportunities. At Vendasta, we're not just offering a job; we're inviting you to build a thriving career in an environment that champions your growth and well-being. Let's soar together!

Discover your potential. Build something that matters. Join the AI revolution from right here in Saskatoon.

Job Requirements

Your Impact:

- Develop software in teams of 5 developers with the ability to take on tasks from the team and independently work on them to completion
- Follow best practices to write clean, maintainable, scalable, and tested software
- Work collaboratively and iteratively with Product Managers to design solutions that help our Partners connect digital solutions to small and medium sized businesses
- Continuous drive to learn and improve your own technical skills
- Bias for action, while dealing well with ambiguity Skills and Qualifications
- Partial Bachelor's degree in Software Engineering, Electrical Engineering, or Computer Science; Computer Systems Technology Diploma; or related technical degree
- Ability to demonstrate software project you have contributed to, or review code you have written
- Strong understanding with high scalability, data intensive, distributed Internet applications
- Proficiency in modern software language, and willingness to quickly learn our technology stack
