Job Description	

Work term: Summer 2026

Work term length: 4 - 8 months (flexible)

From classroom to co-op to career, every step of your journey has an impact on your future. That's why it makes sense to choose a co-op placement with a company that offers truly rewarding work and real-life experience. At Definity®, your contributions, creativity, and energy will be put to good use, and you'll get to be involved with initiatives that support our strategic goals and use your skills in a supportive team environment.

If you're looking for a company that takes care of its people - full time, part time, and co-ops alike - and has a track record of doing big things, get ready to love it here.

What you'll be doing

- Apply knowledge of analytics software to extract, analyze, and model data for Advanced Analytics projects, supported by a leader and senior team members.
- Run recurrent team processes to refresh prior models and tools developed by the Advanced Analytics team.
- Work with leaders and senior team members to prepare and present high-quality deliverables to communicate project insights and influence the adoption of recommendations.
- Conduct industry, demographic, and other consumer research to understand new data sources and applications of analytics, with support from more senior team members.

- Respond to routine, ad-hoc requests of internal and external stakeholders.
- Focus on innovation and process improvement to promote leading practice and efficiency across the organization.

Job Requirements

What you bring

- A university degree completed or in-progress in Data Science, Statistics, Computer Science, Actuarial Science, Mathematics, operations research, or a related discipline.
- Knowledge of statistical and predictive modelling techniques
- Strong communication (oral/written) and organizational skills.
- Demonstrated ability to develop creative solutions to complex problems.
- Strong programming skills, including efficient use of R, Python and SQL
- Efficient use of Microsoft applications (e.g., Excel, Access, VBA).
- Preference will be given to third/fourth year students or recent graduates.

Citizenship Requirement N/A

APPLICATION INFORMATION
