Job Title: Jr. Business & Risk Analyst Co-op

Location: Vancouver

Employment Type: Temporary Full Time

Workplace Type: Hybrid

About our **Vancouver Office**

Located in the heart of downtown Vancouver, between the Pacific Ocean and the Coast Mountains, Teck's Corporate Office sits in one of Canada's most culturally diverse cities.

Surrounded by world-renowned nature and globally inspired cuisine, the office brings together many of Teck's corporate functions - all working toward Teck's purpose of providing the essential resources the world relies on.

Duration:?8 months

Positions Available: 1

Start Date: January 5, 2026

For this exciting position, we are specifically seeking students who have a background in Computer Science, Cyber Security, Risk Management, Business Continuity, Disaster and Emergency Management, Business Administration or a related field.

Supporting the Digital Risk Practice and Resilience team, this role provides hands-on experience in cyber security, operational resilience, and business operations. The co-op will contribute to initiatives that strengthen our ability to anticipate, withstand, and recover from disruptions, whether they arise from cyber threats, technology failures, or third-party dependencies. This opportunity will enable the co-op to explore diverse perspectives, broaden your abilities, and gain unparalleled exposure, all within a single co-op term!

If you are not currently located in the area of this co-op position, you must be willing to either commute or relocate to the surrounding area for the entire duration of the co-op term. You must also currently be a student enrolled in a Canadian post-

secondary institution and will be enrolled throughout the duration of the co-op term (the candidate will also be returning back to the post-secondary institution once the co-op term is completed). Proof of a valid work permit will also be required, if applicable.

Don't miss out on this opening to be part of one of Canada's leading mining companies and join our team!

Why consider Teck Resources Limited for your Co-op Placement?

At Teck, we offer more than just a job - we provide a comprehensive student experience comprised of relevant, hands-on work, vibrant social activities, extensive networking opportunities, and rich professional development. With captivating projects set against stunning backdrops, a culture of inclusivity and collaboration, and boundless opportunities to learn, grow, and have fun, joining us means embracing a fulfilling and dynamic co-op adventure.

In addition to excellent compensation, Teck co-ops receive a variety of advantages including but not limited to:

- Financial assistance to help with travel costs and co-op fees
- Opportunity to develop technical skills and gain practical experience while applying academic knowledge to real-world mining operations and projects
- Enjoy mentorship and guidance from experienced specialists in their respective fields
- Receive primary consideration for professional positions upon graduation

Key Responsibilities

- Be a courageous safety leader, adhere to, and sponsor safety and environmental rules and procedures
- Champion the 3 lines of defense model for risk management and act as a 2nd line of defense facilitator regularly interacting with the 1st line of defense
- Collaborate with team members to plan, implement, and report phishing simulation campaigns, as well as engaging content to communicate cyber security threats and standard processes
- Collaborate with team members to implement the multi-year global technology resilience initiative including service design delivery, gaps analysis, disaster recovery technology requirements and implementation, and disaster recovery planning
- Assist in the delivery and maintenance of business operations, not limited to maintaining performance and compliance dashboards, developing performance reports and presentations, alongside maintaining various budget management support materials
- Assist in documenting procedures and guidelines related to digital risk and resilience
- Collaborate with multi-functional teams and maintain and update resilience metrics, key performance indicators, and dashboards

Pay Range: CAD \$4,000 - \$5,100 per month

The actual amount offered is determined based on the successful candidate's relevant experience, skills, and competencies and considers internal equity.

Why Teck

At Teck, your work matters-to the world, to our communities and to your future.

As a leading Canadian resource company, we focus on responsibly providing the metals essential for global development and the energy transition while caring for the people, communities and land that we love. We do this guided by our values that, together, form *The Teck Way*. At Teck, you'll find purpose-driven work, a culture of respect and inclusion, and the opportunity to grow your career while helping build a better world.

Apply with us

Take the next step in your career by applying for the **Jr. Business & Risk Analyst Co-op** role. We review applications on a rolling basis and encourage you to apply, even if your background doesn't match every requirement. We value diversity and are committed to an inclusive, barrier-free hiring process. Reasonable accommodations are available upon request.

Job Requirements

Qualifications
