<b>Job Description</b>	

**Job Title:** AI Solutions Engineer Co-Op (Fall 2025)

**Job ID:** 2025-19165

### Get ready for a Naan-Traditional placement experience!

We're not your average bakery. We're a team of passionate thinkers and doers that are challenging the idea of what a bakery can be. We operate like a startup, powered by creativity and a 'roll up your sleeves' mentality, to give our customers the best possible product.

### Job Summary

We're looking for an AI Solutions Engineer Co-op to join our growing Engineering team. If you're a student who wants to work on cutting-edge AI projects in a real-world setting and bring bold ideas to life, this is your opportunity to make an impact!

### Key Responsibilities

- Design and develop high-performance applications using .NET (C#), Python, and Azure Cloud services
- Leverage Databricks and Azure AI services for building smart, data-driven applications
- Work on real-time data integration, automation, and process optimization
- Collaborate with a cross-functional team of software developers, data scientists, machine learning engineers, and business analysts
- Develop & deploy apps in cloud environments using Python, .NET, Azure, and Databricks, and integrate them into scalable, production-grade systems
- Encourage a culture of experimentation and continuous learning within the team

*In compliance with Ontario's Bill 190, we confirm that this posting represents a current, existing vacancy within our organization.*
