### **JOB POSTING INFORMATION**

<b>Placement Term</b>	2025 - Fall
<b>&lt;b&gt; Job Title &lt;/b&gt;</b>	F25 Software Developer and Programmer 171908B
<b>Position Type</b>	Co-op Position
<b>Job Location</b>	Vancouver, BC
<b>Country</b>	Canada
<b>Duration</b>	8 or 12 months
<b>Work Mode</b>	Hybrid
<b>Salary Currency</b>	CAD
<b>Salary</b>	0.0 per hour for 0 Major List
<b>Salary Range \$</b>	\$20.00-35.00 per hour
<b>Job Description</b>	

- 1 - Software Development: Design, code, test, and debug software applications according to project requirements.
- 2 - System Maintenance: Perform enhancements and maintenance of existing applications to optimize performance and fix bugs.
- 3 - Documentation: Create and maintain detailed technical documentation, including flowcharts, user manuals, and code notes.
- 4 - Research and Problem Solving: Investigate and resolve technical issues using a variety of tools and methodologies.
- 5 - Code Review: Participate in code reviews to ensure software quality and adherence to industry standards.
- 6 - Unit and Integration Testing: Develop and execute unit and integration tests to ensure software functionality and stability.
- 7 - Software Deployment: Assist in the deployment of applications and provide training to end-users when necessary.
- 8 - Continuous Improvement: Stay updated with the latest technology trends and apply new techniques and tools.

- Project description: This project involves working within our engineering team to develop and enhance the service provided by Momentum. Co-op students will actively participate in the entire software development process, gaining hands-on experience while contributing to a key product. This role offers the opportunity to work with industry professionals and apply academic knowledge to real-world challenges.

- Salary or Salary Range: \$20.00-35.00 per hour.

- This position is a hybrid, and we want candidates who can work in our office three times a week.

For more information about us, Momentum is a customer intelligence platform that instantly turns conversations into valuable GTM data. It seamlessly integrates with your existing tools (Zoom, Gong, Chorus, Google Meet, etc.) and uses AI and automation to extract and synthesize data at scale without your team needing to adopt a new tool.

### **Job Requirements**

- 1 - Active enrollment in a co-op program related to computer science, software engineering, or a similar field.
- 2 - Familiarity with programming languages, and software development tools.
- 3 - Ability to analyze and solve technical problems efficiently and effectively.
- 4 - Willingness to learn new technologies and software development methodologies quickly and autonomously.
- 5 - Write clean, efficient, and well-documented code.
- 6 - Ability to work in a team environment, collaborating with others.
- 7 - Attention to detail and the ability to produce high-quality code that meets industry standards.
- 8 - Self-motivated and able to thrive in a fast-paced, collaborative environment.

**Citizenship Requirement**      Canadian & Permanent Residents & Refugees Only
