#### **Our Purpose**

At Deloitte, our Purpose is to make an impact that matters. We exist to inspire and help our people, organizations, communities, and countries to thrive by building a better future. Our work underpins a prosperous society where people can find meaning and opportunity. It builds consumer and business confidence, empowers organizations to find imaginative ways of deploying capital, enables fair, trusted, and functioning social and economic institutions, and allows our friends, families, and communities to enjoy the quality of life that comes with a sustainable future. And as the largest 100% Canadian-owned and operated professional services firm in our country, we are proud to work alongside our clients to make a positive impact for all Canadians. By living our Purpose, we will make an impact that matters.

--

**Do you want to work in a fast growing and changing environment, with like-minded people who are eminent in their**

**respective technical fields, developing solutions to the infrastructure challenges facing Canadian and foreign governments and investors???**

## **What will your typical day look like?**

As an Analyst in our practice, you will:

- Develop proposals, pitch decks and other marketing materials as part of the group's business development efforts;
- Conduct market research including jurisdictional scans, using publicly available information for comparable infrastructure related projects, programs, organizations and transactions;
- Conduct stakeholder consultations and market soundings with government officials, commercial lenders, equity investors, client comparable organizations and the business community at large;
- Participate in brain-storming and creative thinking sessions to identify solutions for client challenges;
- Develop and review financial models for estimating projects costs and identifying appropriate transaction structures; and
- Provide program management support on large infrastructure initiatives;

## **About the team**

Having advised on many of the world's largest and most complex infrastructure projects and transactions, we provide clients with the best advice on the challenges facing them today, as well as the vision to consider those yet to surface.

Optimizing the return and outcomes throughout the lifecycle of an asset takes a highly skilled and experienced team of specialists. Our Infrastructure Advisory team offers an end-to-end service for investors, government agencies, developers, and operators of infrastructure assets and businesses in both the public and private sectors across the entire infrastructure lifecycle.

Our team works with strategic and financial investors on Infrastructure M&A transactions, with all levels of the Canadian public sector on infrastructure delivery including business case development and infrastructure procurement, and with International Development Organizations (i.e. World Bank Group) and international governments on infrastructure delivery and capacity building. Our work spans various asset classes including but not limited to Social Infrastructure (Education, Healthcare, Government Facilities, etc.), Transportation (Roads, Airports, Rail, etc.), Environmental (Water, Wastewater, Solid Waste, etc.), Power and Utilities, Midstream Infrastructure, and Telecom Infrastructure.

### **Job Requirements**

## **Enough about us, let's talk about you**

In this role, the expected qualifications are:

- Working towards completing a post-secondary degree or diploma in Commerce, Engineering, Political Science, Philosophy, Architecture, Finance, Mathematics, Life Sciences, Accounting or Chemistry
- Excellent visual, written and oral communication skills particularly articulating messages using Microsoft tools (e.g., PowerPoint, Word, etc.)
- Comfortable working with data and numbers, undertaking complex quantitative analyses and working in Excel
- The ability to quickly adapt, learn and thrive in unfamiliar situations
- The ability to take initiative and work well in a culturally diverse, team-orientated environment with strong teaming skills
- Highly motivated with demonstrated ability to manage conflicting priorities and requests in addition to strong organizational and time management skills
- The ability to meet deadlines and produce high quality output with a high degree of task ownership
- A high degree of attention to detail when accomplishing a task.

**Citizenship Requirement**      N/A
