**Join us and assimilate cutting edge tech knowledge at  
SOTI: Next Gen!**

**Job Title:**?Quality Assurance Specialist (Intern)

**Position Type:**?Co-op?

**Location:** Mississauga, Ontario, Canada

**Work Model:** Hybrid

It all started with a classic story about one developer's vision. In 1995, Carl Rodrigues, President and CEO of SOTI, has developed solutions for managing mobile device screens from a desktop. An innovation that has put him ahead in what is now one of the largest growing markets - Enterprise Mobility Management (EMM). At SOTI, we have demonstrated commitment to staying at the forefront of mobility management and security. We are deeply committed to researching and developing solutions that address today's toughest mobility challenges. We strive to go where nobody has gone before.

#### **What's in it for you?**

*The People* - From our humble origins in our founder's basement to our industry-leading position today, SOTI has worked hard to foster a company culture that we can all believe in. A culture that emphasizes personal growth, continuous innovation and fun.

*The Growth* - Our environment fosters new ideas, fresh perspectives, and the ability to take them over the goal line. SOTI is a fast-paced environment with a global reach that encourages you to make your mark and be part of something big!

*The Technology* - You'll get the chance to take on complex and innovative AI projects, as part of highly collaborative and agile

teams. You will work alongside SOTI's partners, including leading tech giants, keeping you at the forefront of emerging technologies.

**Responsibilities:**

- Design, develop and document application test scenarios and test cases based on software requirements and technical specifications for all SOTI's product offerings.
- Create, implement and maintain test coverage for SOTI's Web and Mobile applications.
- Work collaboratively in an agile team with other QA Analysts, Developers, UX Designers, Product Managers and Scrum Masters
- Participate in the testing execution for each sprint (Agile) or testing phase.
- Analyze and document bugs and customer issues.
- Prioritize testing tasks, scenarios and test cases and track and report on testing activities.
- Conduct exploratory testing on SOTI's applications during development.
- Offer creative and innovative solutions to complex testing issues.
- Follow the overall QA process improvements to ensure consistency and standardization across product lines.
- Work in a collaborative, quality focused role in agile development teams to shape SOTI's product offerings.

**About SOTI**

SOTI is a proven innovator and industry leader for simplifying business mobility solutions by making them smarter, faster and more reliable. With SOTI's innovative portfolio of solutions, organizations can trust SOTI to elevate and streamline their mobile operations, maximize their ROI and reduce device downtime. Globally, with over 17,000 customers, SOTI has proven itself to be the go-to mobile platform provider to manage, secure and support business-critical devices. With SOTI's world-class support, enterprises can take mobility to endless possibilities. For more information, visit [soti.net](http://soti.net).

*At SOTI, we celebrate the uniqueness of our global teams and are proud to be an equal opportunity workplace. We are curious problem solvers who are committed to bringing the best mobile and IoT management solutions to market. We offer careers with #EndlessPossibilities.*

*So, what are you waiting for? Apply today!*

**Learn today for tomorrow's growth. Engage!**

*We are committed to providing accessible employment practices that are in compliance with the requirements under the Human Rights Code and the Accessibility for Ontarians with Disabilities Act (AODA). If you require accommodation during any stage of the recruitment process, please notify People & Culture at [careers@soti.net](mailto:careers@soti.net).*

*Please note that SOTI does not accept unsolicited resumes from recruiters or employment agencies. In the absence of a signed Services Agreement with agency/recruiter, SOTI will not consider or agree to payment of any referral compensation or recruiter fee.*

## **Job Requirements**

### **Qualifications:**

- You have strong problem solving abilities
- You are familiar with test strategies, planning and prioritizing test cases and execution
- You have good understanding of web/mobile applications, web services and databases, as well as the OSI model and computer networking principles (TCP/IP)
- You possess knowledge of the software development life cycle
- Some previous exposure to software testing is a definite plus
- You have great passion for modern technology
- You are eager to constantly learn and update your skills in our cross-platform environment, and you like to share knowledge with others
- You have excellent communication skills and you will be able to share and exchange ideas with your team members and management
- You are a student enrolled in either IT, Computer Science or other relevant program.

**Citizenship Requirement**                    N/A
