#### **Position Overview**

We are seeking a highly motivated Software Engineering intern to join an agile development team responsible for building cloud-based Computing and Data Management technologies. You should have experience developing and supporting large scale applications. As a member of a team, you will play an important role in the definition and development of core technologies that make up Autodesk's products. We are looking for an hands-on craftsperson with technology and code. This internship is for Summer 2026.

#### **Responsibilities**

- Implement prototypes and software components
- Collaborate with team of excellent engineers to design, plan, develop, test, deliver and maintain complex features and new subsystems
- Participate and advise in code reviews

#### **Job Requirements**

##### **Minimum Qualifications**

- Pursuing a BS in Computer Science or related technical field, ideally in 3 or 4 years through it

- Experience with large scale, distributed application design and familiarity with application development, Java and/or TypeScript is a strong plus
- Detail oriented and passionate about building great software
- A constant desire to improve, learn more and take things to the next level
- Ability to operate effectively and independently in a dynamic, fluid environment

**Preferred Qualifications**

- Experience contributing as a full-stack developer is a very strong plus
- Experience with continuous build and integration tools such as Ansible, Docker and/or Jenkins will be a strong plus
- Experience with Git or equivalent distributed revision control systems

**About the Canada Intern Program**

The 2026 Canada program runs for 16 weeks ( May 4th - August 21st). All internships are paid. As an intern, you will contribute to meaningful projects, be mentored by industry leaders, participate in tech talks and other activities designed to support your personal and professional development. Our Internships align with Autodesk's Flexible Workplace approach, which is designed to meet the needs of our business while providing flexibility in support of office, remote and hybrid work preferences.

**Citizenship Requirement**                    N/A

## APPLICATION INFORMATION

**Application Procedure**                    Through Employer Website

**Special Application Instructions**

**Please click the "I intend to apply to this position" button on SCOPE and also submit your application via the employer's website.**
