The BC Liquor Distribution Branch (LDB) is one of two branches of government that provide oversight for the beverage alcohol and non-medical cannabis industries in the province. The LDB is responsible for the wholesale distribution of liquor and cannabis, and operates the retail brands BCLIQUEUR and BC Cannabis Stores.

The LDB is committed to government's goals of making life better for people in B.C., improving services, and ensuring a sustainable province for future generations. The revenue generated by the LDB helps fund essential public services like health care, education, and community programming. Learn more on the LDB careers page.

LDB's Information Technology (IT) team consists of 7 competency areas: Customer Experience, Infrastructure & Operations (I&O), Information Security, Enterprise Architecture, Software Services, Data Services, and IT Program Governance. Currently 4 divisions managed by IT Directors collectively are responsible for all of the 7 competency areas to deliver the IT mandate of supporting LDB's corporate and business operations and enabling future needs and initiatives.

At present, the IT team consists of more than 260 full-time employees and includes a sourcing strategy to leverage external expertise to ensure the integrated IT team continues to deliver LDB's strategic initiatives timely and in high quality.

IT department of the LDB is responsible for the entire computing infrastructure for all of the 230+ BC Liquor Stores, BC Cannabis Stores as well as LDB's head office in Burnaby and 4 Warehouse/Distribution Centres including Delta, Kamloops, Richmond, and Victoria. IT department also manages three data centres located in Burnaby, Delta and Kamloops.

### **The Opportunity**

This is a four-month co-op position with an option for the employer to offer an extension of four months. The Co-op Developer position provides hands-on learning experience in the IT Software Engineering team that implements and supports LDB's integration and Web solutions for Liquor, and Cannabis Retail Stores. The opportunity is available to develop, participate and learn key roles and functions while working under the guidance of Senior Developers. This Co-op role is responsible for providing analytical and programming support to the LDB for the design, development, maintenance and enhancement of eCommerce, Wholesale and Retail Liquor and Cannabis business applications. This individual will participate as part of the team to maintain and develop applications in various programming languages and other things such as PL/SQL, C#, Java 8 or higher, JavaScript, Bootstrap, Spring, Springboot, Wildfly, Junit, Web services (SOAP/REST) ,SOAPUI, Postman, Angular , React JS, HTML, JSON or XML and working with database's like PostGreSQL, MS SQL, Oracle. Experience with cloud technologies like Azure and AWS. This opportunity will introduce you to a innovative environment, and you will directly contribute to the success of the team.

### **What's in it for you**

- Hands on learning experience
- Working alongside experienced professionals
- Opportunity to interact with different areas within the organization
- Learn and have extensive involvement in the support of our technology at BC LDB

**Please apply with cover letter, resume and transcript via the co-op office**

### **Job Requirements**

#### **Desirable experience and Knowledge:**

- Ability to provide analytical and programming support to the LDB for the design, development, maintenance and enhancement of corporate, wholesale and retail business applications.
- Ability to maintain and develop applications in various programming languages and other things such as PL/SQL, C#, Java 8 or higher, JavaScript, Bootstrap, Spring, Springboot, Wildfly, Junit, Web services (SOAP/REST) ,SOAPUI, Postman, Angular , React JS, HTML, JSON or XML and working with database's like PostGreSQL, MS SQL, Oracle. Experience with cloud technologies like Azure and AWS
- Ability to develop reusable integration components and services following established integration standards.

#### **Special Comments/Considerations:**

- Successful completion of Criminal Record Check will be required.
- Interviews will be done via MS TEAMS.
- Training and work assignment will be a combination of remote (work from home 3 days per week) and 2 days on premises.
- No travel, relocation or expense reimbursements apply to this opportunity.

#### **Behavioural Competencies**

In addition to the three Public Service Core Competencies (Service Orientation, Results Orientation, and Teamwork & Cooperation) the following competencies are a requirement of the position:

- Analytical Thinking
- Expertise
- Planning, Organizing, and Coordinating
- Problem Solving and Judgement

#### **Indigenous Relations Behavioural Competencies**

- Cultural Agility
- Self-Discovery and Awareness
- Open Listening

**Citizenship Requirement**

N/A
