Innovation is in our DNA... is it in yours?

Bombardier is a global leader in aviation, creating innovative and game-changing planes. Our products and services provide world-class experiences that set new standards in passenger comfort, energy efficiency, reliability and safety. We are a global organization focused on working together with a team spirit.

Your boarding pass will include...

Several conferences, including:

- Meet An Executive
- Women Taking Flight

Learning more about Bombardier, including:

- Bombardier Products conference
- Visits of the Bombardier sites
- Bombardier Academy of Learning

Many social/networking opportunities, including:

- Volunteering
- Networking for Success

- 5 à 7, Potluck, and much more!

## What are your contributions to the team?

During your internship, you will contribute to:

- Develop, maintain and optimize data flows using leading cloud solutions like Azure Data Factory (ADF) and Databricks
- Develop, maintain and optimize reports and dashboards with tools like PowerBI
- Apply best practices in software development and use a DevOps framework for continuous integration and continuous deployment (CICD) of data solutions.

During your internship, you will learn:

- The architecture and operation of a modern data platform (Lakehouse).
- The principles of software development with DevOps and CICD methodology.
- The fundamental elements of cloud data solutions
- Converting business requirements into technical solutions
- Communication between business unit users, solution architects, and developers
- The necessary test and validation methods before a data solution is deployed into production
- Key security elements in the development of data solutions
- The importance of data governance to accelerate the delivery of data solutions, including artificial intelligence solutions.

## Job Requirements

### How to thrive in this role?

- You are enrolled in an undergraduate (final year) or graduate university program in computer science, engineering, or other applied science programs.
- You are familiar with data analysis tools like PowerBI
- You are proficient in python and SQL languages
- You already have internship experience in the field of data analytics
- You speak and write French and English

**Citizenship Requirement**                    N/A

## APPLICATION INFORMATION

**Application Procedure**                    Through Employer Website

### Special Application Instructions

**Please click the "I intend to apply to this position" button on SCOPE and also submit your application via the employer's website.**

Application Link: <https://jobs.bombardier.com/job/Dorval-Intern%2C-Data-Solutions-Developer-Data-&-Analytics-Center-of-Excellence-%28IT%29-%28Summer-2026%29-Qu%C3%A9bec-H4S-1Y9/1290555501/>

Applications are accepted on a rolling basis and the posting may be expired at any time by the employer as submissions are received.

Students should submit their applications as soon as they are ready.
