Job Description	

Location: 303 Terry Fox, Kanata

Job Type: Term Co-op (4 months to 1 year)

Company: March Networks Corp.

About Us: At March Networks, we are committed to pushing the boundaries of technology through innovative solutions. Our team specializes in Generative AI and cloud computing, driving transformative projects that shape the future of various industries.

Position Overview: We are looking for a dynamic Coop Student to join our team as a Generative AI and Cloud Application Developer for a 4-month to 1 year term. This position offers a unique opportunity to gain practical experience in developing AI-driven applications and cloud solutions, while contributing to impactful projects.

Key Responsibilities:

- Collaborate with team members to design, develop, and implement applications with generative AI models and cloud environments.
- Assist in the integration of AI features into existing cloud-based systems.
- Participate in testing, debugging, and optimizing AI models for performance and scalability.
- Support the documentation of code, processes, and technical specifications.
- Conduct research on emerging trends and best practices in AI and cloud technologies.

- Contribute to team brainstorming sessions and provide creative solutions.

Qualifications:

- Currently enrolled in a degree program in Computer Science, Data Science, or a related field.
- Basic understanding of generative AI concepts and techniques (e.g., machine learning, neural networks).
- Proficiency in programming languages such as Python, Java, or JavaScript.
- Familiarity with cloud platforms (AWS, Azure, GCP) is a plus.
- Strong analytical skills and a problem-solving mindset.
- Excellent communication skills and a willingness to learn.
- Ability to work collaboratively in a team-oriented environment.

March Networks is an equal opportunity employer and supports a diverse workforce.

Accommodations are available upon request for candidates taking part in all aspects of the selection process. Applicants can make their accommodation needs known to us in their application.

Please note March Networks uses AI as part of the recruitment process.

Citizenship Requirement N/A
