#### **Education Recommendations**

Currently enrolled in the third or fourth year of a bachelor's degree or diploma in Computer/Software/Electrical Engineering, Information Technology, Computer Science, or a related field with an accredited school in Canada.

### **Your responsibilities**

#### **As part of our team, you will:**

- Learn about Nokia's Data Center Solution
- Gain hands-on experience with OpenStack and Kubernetes
- Develop scripts to aid our team in the delivery of custom automation projects

### **More information**

Some of our benefits for students in Canada:

- Flexible and hybrid working schemes to balance work and life
- Professional development events and networking opportunities
- Campus perks designed to make your student experience enjoyable and social, such as access to an onsite cafeteria, free employee parking, complimentary fitness centre, and sports facilities (volleyball, basketball, pickleball courts, ping pong, and employee leagues)
- Well-being programs, including Personal Support Service 24/7 - a confidential support channel open to all Nokia employees and their families in challenging situations
- Opportunities to join Nokia Employee Resource Groups (NERGs) and connect with people who share your passions and values
- Employee Growth Solutions, mentorship programs, and coaching support for your career development
- A learning environment that fosters both personal growth and professional development - for your role and beyond

**Disclaimer for US/Canada**

Nokia maintains broad annual base salary ranges for its roles in order to account for variations in knowledge, skills, experience and market conditions, and with consideration to internal peer equity. Check the salary ranges in the job info section for this role.

**All North America job posts will post for a minimum of 3 calendar days and up to 180 days or until candidate/s identified.**

**Job Requirements**

## Your skills and experience

- Comfortable working with Linux operating systems
- Familiar with virtualization technologies would be an asset
- Experience with Java and familiarity with programming concepts
- Scripting (bash, Perl, Python, etc.)

**Citizenship Requirement**                    N/A
