<b>Job Description</b>	

**Position:** Software Test Automation Co-op

**Number of Position(s):** 2

**Duration:** 4 Months+

**Date:** May 4 - Aug 28th, 2026

**Location:** Hybrid in Ottawa Office

Join our team and dive into the world of test automation and data-driven development. You'll work on deep data mining and apply cutting-edge techniques to improve test management processes. In this role, you'll program new capabilities into our automation infrastructure-such as validation methods, device connectivity, and debugging tools-helping make systems more reliable and efficient. You'll also analyze requirements and design the functionality needed within the automated framework, while prototyping new approaches for handling deployment scenarios. This position offers a great opportunity to strengthen your programming, problem-solving, and innovation skills while contributing to the robustness of Nokia's test systems.

#### **EDUCATIONAL RECOMMENDATIONS**

Currently a candidate for Master's, 3rd year+ in Bachelor's degree or Diploma in Computer Science, Computer Engineering, Software Engineering or related field with an accredited school in Canada.

### **Your responsibilities**

**As a part of our team, you will:**

- Participate in deep data mining and cutting-edge techniques for test management.
- Program new capabilities into our test automation infrastructure such as test validation methods, connectivity to devices and debugging utilities.
- Understand the requirements and devise how to build the corresponding functionality in the automated framework.
- Prototype new ways to manipulate specific deployment scenarios with a focus on the robustness and efficiency of the system.

### **Job Requirements**

## **Your skills and experience**

You have:

- Demonstrated programming skills in Python, Java, and JavaScript
- Strong understanding of object-oriented software design concepts
- Familiarity with Linux

**It would be nice if you also had:**

- Experience with machine learning/AI
- Experience with Git or other version control systems

**Citizenship Requirement** N/A

**Position Start Date** May 04, 2026 12:00 AM

**Position End Date** August 28, 2026 12:00 AM

## **APPLICATION INFORMATION**

**Application Procedure** Through Employer Website
