<b>Job Description</b>	

### **Company Description**

Veolia is a global leader in environmental services, operating across all five continents with nearly 218,000 employees. Specializing in water, energy, and waste management, Veolia Group designs and implements innovative solutions for decarbonization, depollution, and resource regeneration, supporting communities and industries in their ecological transformation. Within this framework, Veolia's Water Technology Business brings together a dedicated team of experienced professionals committed to tackling the world's most complex challenges related to water scarcity, quality, productivity, and energy. Together, we pursue a shared mission to create a more sustainable future.

### **Job Description**

The lead Engineering intern is accountable for all aspects of engineering necessary to deliver custom water treatment systems to industrial and municipal customers. The LE Intern assists a cross disciplinary team of engineers and designers to ensure on time and budget execution of the process, mechanical, electrical, instrumentation, and controls engineering tasks on the project. As an intern, you will be directly working with Lead Engineers assigned to the projects to assist with assigned tasks as outlined below but not limited to:

- Help with project organizing and planning
- Tracking project issues with assigned parties to completion
- Prepare reports for the teams as required
- Help with project engineering submittals
- Help with updating Master Document List (MDL) and project execution dashboard
- Participate in group activities and initiatives

## **Job Requirements**

## **Qualifications**

- Enrolled in Engineering, technical degree, or diploma
- Organizational skills with the ability to work within a fast-paced environment
- Good communicator with ability to interface with clients, suppliers, and co-workers
- Familiarity with Process and & Instrumentation diagrams
- Self-motivated, driven, and a team player
- Working with minimum supervision

### **Useful skills or abilities:**

While on-the-job training will be provided, candidates may benefit from previous knowledge and exposure in the following areas:

- Proficient level of working with MS Excel, MS Word, MS PowerPoint
- Presentation skills
- Familiar with project management principles
- Familiar with project planning

## **Additional Information**

All your information will be kept confidential according to EEO guidelines.

**Citizenship Requirement**                  N/A

## **APPLICATION INFORMATION**

**Application Procedure**                  Through Employer Website

**Cover Letter Required?**                  Optional

### **Special Application Instructions**

Please click the "I intend to apply to this position" button on SCOPE and also submit your application via the employer's website.
