Job Title: Quality Assurance Intern	
Location: Mississauga, Canada	

Who We Are:

At SOTI, we are committed to delivering best in class mobile and IoT device management solutions. We are looking for out of the box thinkers that appreciate the art of creating great software.

To us, being visionary is more important than doing things the way they've always been done.

What's in it for you?

The People - From our humble origins in our founder's basement, to our industry leading position today, SOTI has worked hard to foster a company culture that we can all believe in. A culture that emphasizes personal growth, continuous innovation and fun.

The Growth - Our environment fosters new ideas, fresh perspectives, and the ability to take them over the goal line. SOTI is a fast-paced environment with a global reach that encourages you to make your mark and be part of something big!

The Technology - You'll get the chance to work with leading edge technologies and take on complex and interesting projects, as part of highly collaborative and agile teams. You will work alongside SOTI's partners which include leading tech giants that will keep you on the cusp of emerging technologies.

What you will learn:

- Design & develop test plans and test cases based on software requirements and technical specifications for all SOTI's product offerings
- Create, implement and maintain test coverage for SOTI's Web and Mobile applications.
- Work collaboratively with test teams

- Prioritize testing tasks, scenarios and test cases and track and report on testing activities
- Conduct various types of testing as part of the feature development process and release cycle
- Follow the overall QA process improvements to ensure consistency and standardization across product lines
- Work in a collaborative, quality-focused role in agile development teams to shape SOTI's product offerings

Required skills:??

- Knowledge of algorithms, data structures and database fundamentals
- Basic knowledge of Software Development Life Cycle concepts
- Strong analytical and problem-solving skills
- Basic knowledge of programming in one or more of the following programming languages: C, C++, Java, JavaScript, SQL, Ruby, Rust, Lua, Haskell
- Basic knowledge of test strategies, planning and prioritizing test cases and execution.
- Knowledge of web/mobile applications and web services testing, as well as the OSI model and computer networking principles (TCP/IP).
- Most importantly curiosity, a desire to learn and be a part of a team

Learn today for tomorrow's growth. Engage!

We are committed to providing accessible employment practices that are in compliance with the requirements under the Human Rights Code and the Accessibility for Ontarians with Disabilities Act (AODA). If you require accommodation during any stage of the recruitment process, please notify People & Culture at careers@soti.net.

Please note that SOTI does not accept unsolicited resumes from recruiters or employment agencies. In the absence of a signed Services Agreement with agency/recruiter, SOTI will not consider or agree to payment of any referral compensation or recruiter fee.

Citizenship Requirement N/A
