<b>Job Description</b>	

Holman is a global automotive leader that serves both commercial and consumer clients *The Holman Way* by always doing the right thing for our people, our customers, and the community since 1924. The Holman story began nearly a century ago as a single Ford dealership in New Jersey. Today, Holman, headquartered in Mount Laurel, New Jersey, is one of the largest family-owned automotive service organizations in North America with more than 6,500 employees across North America, the UK, and Germany.

Holman delivers a unique range of automotive-centric services including industry-leading fleet management and leasing; vehicle fabrication and upfitting; component manufacturing and productivity solutions; powertrain distribution and logistics services; commercial and personal insurance and risk management; and retail automotive sales as one of the largest privately owned dealership groups in the United States. Guided by its deeply rooted core values and principles, Holman is continuously *Driving What's Right*.

Holman has an outstanding opportunity for a **Developer Intern** reporting into our **Mississauga, ON** head office.

### What will you do?

- Work with business units to understand requirements for software development and delivery.
- Learn and help evolve Holman's technical standards, bringing fresh perspective and ideas from the academic world into the commercial space.

- Perform coding build and maintain software
- Investigates, analyzes and documents reported defects.
- Creates, documents, and implements test plans and harnesses to ensure high quality work product.
- Performs related duties as assigned.
- Provides reasonable and fair estimates for assigned tasks and work efforts.
- Keeps current with software development trends, make suggestions and take action on IT-related best practices, processes and systems.

### **Job Requirements**

#### **What are we looking for?**

- Must be enrolled in an accredited college or university pursuing a degree in a computer, systems programming or engineering field.
- Proficiency in programming languages like C#, JavaScript, React, and Typescript.

**Citizenship Requirement**                    N/A
