<b>Job Description</b>	

**Job:** Software Engineer Co-op

**Job Overview:**

**Employment Type:** Temporary, Full-Time (4-Month Term)

**Work Location:** 197 Forester St Unit 305, North Vancouver, BC V7H 0A6

**Application Deadline:** Open until filled

**About Vizzion**

Vizzion aggregates live road imagery and provides data and services to major brands in the mapping, media, safety & security, ITS (Intelligent Transportation Systems), and traffic & weather industries. Our imagery is used by millions of users every week, saving drivers time, money, and frustration, while also helping the environment by reducing vehicle emissions.

Our dynamic team enjoys flexible hours, extended health/dental, education reimbursement, comprehensive quarterly reviews, rapid professional development, and results-based rewards. We are located in North Vancouver, close to Phibbs Exchange and many amenities.

**Job Description**

We are seeking a student developer to assist with a software project focused on computer vision and other camera related algorithms. The ideal candidate has experience building computer vision models, working with APIs, and handling geographic data. This is a paid, temporary position offering hands-on experience in a collaborative environment.

**Core Values**

- Cares deeply for customer satisfaction

- Detail oriented with a relentless drive for quality and accuracy
- Unwavering moral compass that puts integrity ahead of profits and personal gain
- Brings energy and solutions; helps move things forward with a calm, constructive approach even in challenging situations
- Believes in rewarding results and meaningful contributions over incentives
- Focuses on the value created rather than the cost incurred
- Takes a long-term view, prioritizing sustainable growth and lasting impact over short-term wins
- Acts with empathy, humility, and generosity, placing team and purpose above self-gain

#### **Mindset and Approach**

- Brings data driven, evidence-based decision-making and recommendations
- Able to channel different points of view; establish and maintain excellent relationships and credibility quickly; create team atmosphere with internal staff while achieving key objectives
- Continuous improvement mindset, staying connected to industry developments and emerging trends
- A can-do attitude and a willingness to do what it takes to get the job done on-time and on-quality

#### **Key Accountabilities**

- Project planning and estimation
- Design, code, test, release
- Weekly written and verbal progress reports

#### **What We Offer**

As part of our total compensation package, we provide the following benefits to eligible employees:

##### Work-Life Balance

- Flexible work hours that support balance and accommodate diverse schedules.

##### Health & Wellness

- Ergonomic workspace setup to promote comfort and long-term well-being.
- Complimentary healthy snacks and catered Thursday lunches.

##### Growth & Development

- Weekly Lunch & Learn sessions to exchange ideas and broaden knowledge.
- Mentorship opportunities that foster collaboration and continuous improvement.

##### Team Building & Culture

- Full-day job shadowing experiences to learn from peers across departments.
- Company-paid "Say Hi" lunches to connect and build relationships.
- Monthly social activities that strengthen team connection and celebrate milestones.
- Recognition programs that highlight contributions and achievements.

##### **Salary Range:** \$25 per hour

**Please note:** This position is a full-time, on-site role based in North Vancouver, requiring in-person attendance five days a week. This means the successful candidate will be expected to work from our North Vancouver office for the entirety of their work schedule.

#### **Job Requirements**

##### **Required Education, Skills and Experience**

- Experience with machine learning
- Experience with APIs
- Excellent communicator fluent in spoken and written English

##### **Experience with the following is considered an asset:**

- CNNs
- Classical computer vision
- Cameras
- Geographic data
- Imaging data

#### **Citizenship Requirement**

N/A

## **APPLICATION INFORMATION**

**Application Procedure**      Through Employer Website

**Cover Letter Required?**

Yes

**Address Cover Letter to**

Head of Culture & Talent

**Special Application Instructions**

**How to Apply**

This is the perfect time to join Vizzion and become part of an innovative and dynamic team!

• Submit your resume and cover letter in PDF format

• Instead of a cover letter, you can include a **short video (up to 3 minutes and 25MB)** telling us why you'd like to join Vizzion and what excites you about the role

• Email your application to Head of Culture & Talent, at [careers@vizzion.com](mailto:careers@vizzion.com)

All employment will be decided based on qualifications, transferrable skills, lived experience, and business need. We thank all who apply, but only applicants selected for an interview will be contacted. For more information about this and other Vizzion career opportunities, please visit [vizzion.com/careers](http://vizzion.com/careers).

**Please click the "I intend to apply to this position" button on SCOPE and also submit your application via the employer's email.** Applications are accepted on a rolling basis and the posting may be expired at any time by the employer as submissions are received. Students should submit their applications as soon as they are ready.
