Job Description	<p>Netgear is looking for a motivated Co-op student to join our Home Networking team as an Orbi Software Test Engineer. This position will involve writing and maintaining test cases for Orbi's software stack, including the Orbi app, the Orbi Cloud, and the Orbi router. You will work closely with the development team to ensure that the software meets the highest quality standards. You will also be involved in the review and analysis of code changes to ensure they meet the requirements. You will be required to have a strong understanding of networking concepts and be able to troubleshoot complex issues.</p>
Job Requirements	<p>• Experience in writing and debugging programs or scripts, preferably in Python. Bonus points for C/C++. • Experience with complex test cases, including functional, performance, and system tests. • Basic understanding of software development & collaboration tools such as JIRA, Zephyr, Confluence, and GitHub.</p>
PREFERRED EDUCATION (OPTIONAL)	• Bachelor's degree in Computer Science or related field • Strong programming skills in Python, C/C++, Java, or similar languages • Experience with Linux shell scripting, Playwright or Selenium • Familiarity with Git and version control • Experience with CI/CD pipelines and automated testing
Citizenship Requirement	N/A
