<b>Job Description</b>	

### Data Analyst (Co-op)

**Location:** Vancouver, British Columbia

#### Inspire the World, Create the Future

Do you believe in the power of technology to help shape a brighter future and a stronger global community? Are you inspired by the possibilities? Are innovation, camaraderie, and the pursuit of excellence part of your innate drive? Then you've got what it takes to succeed at Samsung.

Samsung R&D Canada is hiring a Data Analyst Co-op. To be successful in this role, you have a strong analytical mind and like to see the bigger picture. You have exemplary attention to detail and understand how important your role is in helping with business decisions. You have passion for solving complex problems and have a high degree of aptitude when it comes to learning new technologies. You are a team player and know how to work well with others.

If this sounds like you, we would love to have you join our team!

#### What You'll Do

- Work in a multi-disciplinary scrum team. Collaborate with other groups, including Product Management, Technical Support and Development teams, to understand business needs
- Contribute to the growth of our Big Data & BI Platform with new technologies, algorithms and solutions
- Perform requirement gathering from stakeholders to develop dashboards using Tableau.
- Analyze data from various sources and propose insights and correlations that can be derived from the data. Analyze and research industry trends and facts in order to provide industry related subject matter expertise
- Be constantly challenged to learn and grow with new technologies and complex problems

**Additional Information:**

- \$20-\$27/hr (Co-Op pay will be determined based on a number of factors and may vary depending on job-related knowledge, completed study terms, relevant skills, and experience)
- 8 months (January - August)
- Hybrid (Monday-Thursday in office, located in Vancouver)
- Interviews will be 30-45 minutes with selected candidates

**Job Requirements****What You'll Bring**

- Relevant experience in a Data Analyst role
- Use SQL to develop models/algorithms and automate data reports for analysis.
- A strong business acumen and good knowledge of Tableau, e.g. preparing data source, dash board and data insights for senior leadership
- Good knowledge of Time Series Analysis and other common data visualization best practices
- Attitude to work with the team and an aptitude to learn quickly

**Bonus Skills**

- Experience in dashboard visualization or software UX design
- Knowledge of Samsung mobile devices and services
- Knowledge of programming and/or scripting languages (Java, bash, Python, R)
- Experience in Agile/Scrum software development methodologies
- Experience in data engineering, familiar with AWS or GCP
- Experience in data science, ML and AI technologies

**Citizenship Requirement**                    N/A**APPLICATION INFORMATION**
