Country	Canada
Duration	4 months
Work Mode	Fully Remote
Salary Currency	CAD
Salary	0.0 per hour for 0 Major List
Salary Range \$	\$28-\$32/hour
Job Description	

What You'll Do

As a Software Engineering Intern at Vial, you'll play a crucial role in building end-to-end products that power clinical trials. Working alongside a nimble team, you'll have the opportunity to make a real impact on the industry. We're looking for people who are passionate about technology and excited to bring their expertise to our team. We need individuals who can figure out the best way to get things done, especially when it matters most, and who are ambitious in their pursuit of career growth and success. Please note that this internship is available for the fall term.

Key Responsibilities

- Collaborating with the team to establish Vial's technical vision and architecture
- Building applications end-to-end using a combination of traditional software development frameworks and low/no-code tools
- Writing well-crafted, well-tested, readable, and maintainable code and documentation
- Providing input on the product roadmap and future plans
- Participate in the development of large-scale projects at all stages of the software development lifecycle
- Continuously learn and improve your skills. This includes staying up to date with the latest industry trends, technologies, and best practices

Job Requirements

What You'll Bring

- 1-2 years of experience with full stack engineering (internships, side projects, etc.)
- Experience working with Javascript and widely adopted libraries/frameworks (ie React, Express)
- Experience working with one or more general purpose programming languages (TypeScript, Python, C#, etc)
- Ability to work full time, 40 hours a week during US / Canada working hours (EST or PST)
- History of shipping high quality products and features at scale
- Knowledgeable about modern web technologies and testing frameworks
- Experience working with databases
- Ability to pick up new tools quickly
- Entrepreneurial mindset, experience in startup environment preferred
- Experience with healthcare or clinical trials is a plus
- New graduates welcome and encouraged to apply

Citizenship Requirement N/A

APPLICATION INFORMATION

Application Procedure Through Employer Website

Special Application Instructions

Please click the "I intend to apply to this position" button on SCOPE and also submit your application via the employer's website.
