**Job Title:** May 2026 - Cloud, Data & AI - Summer Intern

**Location:** Ottawa or Toronto

**Job ID:** 659553WD | 646764WD

**Application Deadline:** September 28th, 2025 at 11:59 PM EDT

**Launch Your Career with PwC Canada's Summer Internship**

At PwC Canada, we're more than a professional services firm—we're a community of solvers tackling the world's most important problems. As an Intern in our market leading Consulting practice, you'll be part of a diverse, inclusive team that values your perspective and empowers you to make a real impact. You'll gain hands-on experience with real client work, explore how businesses operate, and learn how trust is built through compliance and strategic planning.

This Summer Internship offers a launchpad like no other. You'll be supported by experienced professionals and exposed to our innovative digital Consulting tools. From early May through mid-August 2026, you'll dive into real client work, learning how businesses operate and how trust is built through consulting services. You'll be guided through the consulting process by experienced professionals and gain exposure to our market-leading digital tools. You'll benefit from a rich internship experience that includes meetings with firm leadership, interactive lunch and learns, skill-building workshops, client visits, and opportunities to participate in volunteer and social events.

**Grow here, go further.**

Experiences and Skills You'll Use to Solve:

A career within the Cloud, Data and AI practice will provide you with the opportunity to assist leading organisations develop and

implement strategies that transform their technology capabilities and solve their most critical business challenges. Joining this newly formed team will allow you the opportunity to shape, scale and provide leadership to a group of highly skilled cloud architects and engineers. You will be able to combine your consulting, technical and industry expertise to build and deliver emerging cloud solutions.

As a Cloud, Data and AI Associate, you'll work as part of a team of problem solvers, helping to solve complex business issues from strategy to execution. Responsibilities include but are not limited to:

- Collaborate with cross functional team members to develop and propose cloud-based, data-driven solutions to potential customers technical including proposals and statements of work.
- Analyze business and technical requirements and translate to designs and approach.
- Participate in meetings and discussions with internal and external customers.
- Take an "always learning" approach to your role, continuing to advance your skills, knowledge and network in Cloud, Data and AI space
- Be an out of the box thinker; look for opportunities to learn new software and technology.
- Obtain and maintain relevant certifications as needed for the Practice
- Collaborate with your team members and contribute as a technical team member
- Contribute to the build of reusable and repeatable artifacts that the practice can bring to market.
- Implement use cases to deliver business outcomes for customers based on the identified requirements.

With connectivity being a key enabler of our strategy, our objective is to become the most connected firm - connected to our clients, our communities and to each other. PwC follows an Activity Based Work model, where our PwC professionals engage in a diverse range of activities from our offices, from client sites, or our homes.

Apply before our applications close on September 28th, 2025 at 11:59 PM EDT. To learn about our application process visit our Applying to PwC page on our campus recruitment website.

#### **Why you'll love PwC**

We're inspiring and empowering our people to change the world. Powered by the latest technology, you'll be a part of diverse teams helping public and private clients build trust and deliver sustained outcomes. This meaningful work, and our continuous development environment, will take your career to the next level. We reward your impact, and support your wellbeing, through a competitive compensation package, inclusive benefits and flexibility programs that will help you thrive in work and life. Learn more about our Application Process and Total Rewards Package at: <https://jobs-ca.pwc.com/ca/en/life-at-pwc>

PwC Canada acknowledges that we work and live across Turtle Island, on the land that is now known as Canada, which are the lands of the ancestral, treaty and unceded territories of the First Nations, Métis and Inuit Peoples. We recognize the systemic racism, colonialism and oppression that Indigenous Peoples have experienced and still go through, and we commit to allyship and solidarity.

#### **Job Requirements**

##### **What you'll bring to this role:**

- An interest in upskilling for a digital world and technology trends, an openness to learning new tools and adapting how you work
- A demonstrated commitment to valuing differences and working alongside diverse people and perspectives
- Strong written and verbal communication skills to articulate new ideas
- Highly detail oriented with excellent organizational and analytical skills; an ability to think broadly and to ask questions about data, facts and other information to deliver quality to our clients
- Share and collaborate effectively with others, building relationships which are genuine and rooted in trust
- Ability to easily adapt and prioritize, demonstrating project management skills to handle changing priorities
- Examples of alignment with PwC Values: Acting with Integrity, Working Together, Care, Reimagine the Possible and Make a Difference
- You'll be comfortable travelling to cities across Canada (when deemed safe to do so by applicable public health or regulatory authorities and PwC)
- This role requires that you are legally entitled to work for PwC in Canada for the intended duration of the offer/contract.
- We'd love it even more if you're bilingual in English and French, however this isn't a requirement.
- Valid Federal Government security clearance or ability to obtain one

**Citizenship Requirement**      N/A
