<b>Job Description</b>	

### **About Us**

At Super.com, we're on a mission to help people save more, earn more, and get more out of life. That goes for both our customers and our team.

For our employees, Super.com is more than just a workplace - it's an opportunity to grow, make an impact, and unlock your full potential. We invest in learning, celebrate bold ideas, and create pathways for career growth.

We move fast, think big, and always put people first. Your career should be as rewarding as the work you do, and at Super.com, we're here to make every day Super.

**Term:** This internship is for the Summer Term - May 11, 2026 to August 21, 2026

### **What's it like to intern at Super.com?**

Interning at Super.com is an exciting chance to dive into the world of tech and startups, work on real projects, and learn a ton along the way. From day one, interns are fully part of the team - contributing to work that actually ships and gets used. It's a fast-moving yet super supportive environment where you're encouraged to ask questions, try new things, and grow through hands-on experience. Many interns say it's the most they've learned in such a short time! Even though we're remote, the culture is fun,

collaborative, and well-connected- you'll be included in team meetings, Slack chats, and social events, so you'll never feel like you're doing this alone.

#### **About the Role:**

We are looking for an Infrastructure Engineering Intern with 4-16 months of experience to join our infrastructure engineering team.

Our team is responsible for the infrastructure around building, deploying, and monitoring our services, databases, and caches.

- Work with cutting edge infrastructure tools like Docker, Kubernetes, Terraform, Helm, and Istio
- Accelerate development across the company with faster, safer, and more frequent deploys
- Meaningfully improve developer happiness and productivity across the company with better development tools and workflows
- Contribute directly to the bottom line with cost savings initiatives and optimizations
- Catch errors and performance issues early with automated monitoring and alerting

#### **Our Stack:**

- Amazon Web Services (AWS)
- Tens of containerized microservices written in Python and/or JS processing a total of 15k+ requests per second
- Kubernetes for deploying services
- Infrastructure as Code in Terraform and Helm
- Datadog and Incident.IO for logging, monitoring, and alerting
- Postgres for storage and Redis for caching
- Gitlab for version control and CI/CD
- Python, Bash, and Docker for local development workflows and CI/CD jobs

#### **What We Offer:**

- Home Office Setup Allowance: \$300 one-time
- Friday UberEats Allowance: \$25/week
- Learning & Development Allowance: \$300/ per term
- Fitness/Wellness Allowance: \$120/per term

Candidates can be based anywhere in Canada, provided they maintain a minimum 6-hour overlap with the Eastern Time Zone and are available to work a 40-hour work week.

## **Job Requirements**

#### **What we're looking for:**

- You have experience and comfort with POSIX-based operating systems
- You've used docker before and understand what it is and what problems it solves
- You have some knowledge of how networked services in the cloud work: VPC, IP, TCP, DNS, HTTP, etc.
- You abhor repetitive manual processes and are excited to automate them away
- You have a sixth sense for spotting waste (in money, time, CPU cycles) and eliminating it
- You learn quickly, regardless of the languages and technologies used

**Citizenship Requirement**                    N/A

**Position Start Date**                    May 11, 2026 12:00 AM

**Position End Date**                    August 21, 2026 12:00 AM

## **APPLICATION INFORMATION**

**Application Procedure**                    Through Employer Website

**Special Application Instructions**

APPLICATION LINK: <https://jobs.ashbyhq.com/super.com/aa78bb98-1185-4a4a-ab2d-d01026194aa0>

**Please click the "I intend to apply to this position" button on SCOPE and also submit your application via the employer's website.**

Applications are accepted on a rolling basis and the posting may be expired at any time by the employer as submissions are received.

Students should submit their applications as soon as they are ready.
