## **Who we are:**

Geotab ® is a global leader in IoT and connected transportation and certified "Great Place to Work™." We are a company of diverse and talented individuals who work together to help businesses grow and succeed, and increase the safety and sustainability of our communities.

Geotab is advancing security, connecting commercial vehicles to the internet and providing web-based analytics to help customers better manage their fleets. Geotab's open platform and Geotab Marketplace ®, offering hundreds of third-party solution options, allows both small and large businesses to automate operations by integrating vehicle data with their other data assets. Processing billions of data points a day, Geotab leverages data analytics and machine learning to improve productivity, optimize fleets through the reduction of fuel consumption, enhance driver safety and achieve strong compliance to regulatory changes.

Our team is growing and we're looking for people who follow their passion, think differently and want to make an impact. Ours is a fast paced, ever changing environment. Geotabbers accept that challenge and are willing to take on new tasks and activities - ones

that may not always be described in the initial job description. Join us for a fulfilling career with opportunities to innovate, great benefits, and our fun and inclusive work culture. Reach your full potential with Geotab. To see what it's like to be a Geotabber, check out our blog and follow us @InsideGeotab on Instagram. Join our talent network to learn more about job opportunities and company news.

## Who you are:

We are always looking for amazing talent who can contribute to our growth and deliver results! Geotab is seeking a data science intern who will contribute to data exploration, transformation, and product ionization for one of our product pillars. If you love technology, and are keen to join an industry leader - we would love to hear from you!

## What you'll do:

As a data science intern your key area of responsibility will be the design and construction of new metrics and data models using prototypes, algorithms, predictive models, and custom analyses. This internship position works closely with a team of data scientists, product managers, and other technical professionals to analyze trends, enable data driven decision-making, and produce effective customer-facing products.

## The opportunity:

- 8 month work-term beginning May 2026.
- Full-time, paid internship: Monday - Friday, 37.5hrs/week.
- Your first week at Geotab begins with 'GEO Launch' - a one-week Employee Orientation. [Click here](#) to learn more!
- Learn more about the Geotab Campus Program [here](#).
- This posting is for an existing vacancy.

## How you'll make an impact:

- Pull data sets and assemble presentations and visualization for strategic customers and early adopters of new or in progress features
- Assist in dashboarding and visualizations for coverage and accuracy metrics for data science models
- Test the performance of data-driven products and make recommendations for improving Geotab's product suite
- Contribute to the sprint development and review cycle within your assigned pillar's data science team
- Create algorithms and predictive models to extract information required to solve complex business problems.
- Generate queries from Geotab's Big Data Infrastructure from Data Warehousing database (i.e. Google BigQuery).

### Job Requirements

## What you'll bring to the role:

- Working towards a degree in engineering, mathematics, or computer science
- Interest or experience in sensor data and data cleaning
- SQL and Python experience
- Experience using a BI platform like looker, or PowerBI. Superset specifically is an asset
- Willingness to learn and creative mindset.
- Eager to experience working within a technical or engineering organization.
- High accuracy and meticulous attention to detail.
- Ability to work well under pressure and respond to fast changing priorities.
- Highly organized
- Strong team player

### Citizenship Requirement

N/A

## **APPLICATION INFORMATION**

**Application Procedure** Through Employer Website

**Special Application Instructions**

**Please click the "I intend to apply to this position" button on SCOPE and also submit your application via the employer's website.**

Application Link: <https://job-boards.greenhouse.io/internshiplist2000/jobs/5013877008>

Applications are accepted on a rolling basis and the posting may be expired at any time by the employer as submissions are received.

Students should submit their applications as soon as they are ready.
