Education Recommendations

Completed a minimum of two years of related undergraduate study. Be a candidate for a Master's, Bachelor's degree, or Diploma in Engineering or Computer Science, or a related field with an accredited school in Canada.

Your responsibilities

As a part of our team, you will be:

- Developing and maintaining web GUI components, services, and utilities built with React
- Integrating component deliveries into new and existing web applications
- Engaging with User Experience experts to create modern, user-friendly, enterprise-grade web components
- Working in a team-based Agile environment, working closely with Developers, Testers, and Product Management to refine requirements, develop, and test our products

Job Requirements

Your skills and experience

Qualifications

- Experience developing, testing, and maintaining single-page web applications, libraries, and infrastructure
- Familiarity with the ReactJS framework, state management, lifecycle, and unit testing plugins (React, JavaScript, HTML5, CSS3, Webpack, REST/JSON)
- Knowledge of web communication protocols and methodologies (REST APIs, sockets, events & notifications)
- Exposure to Kubernetes and Docker environments, tools, and processes

It would be nice if you also had:

- Knowledge of web communication protocols and methodologies (REST APIs, sockets, events & notifications)
- Exposure to Kubernetes and Docker environments, tools, and processes
- Knowledge of web testing methodologies (Unit test, Contract test, Integration test) and technologies (Jest, RTL, Cypress, Selenium, Mocha)
- Strong knowledge of Mac and Linux environments and tools

Citizenship Requirement N/A

Position Start Date May 04, 2026 12:00 AM

Position End Date August 28, 2026 12:00 AM
