Job Description

Job Title: Intern - Product & Data Engineering (May 2026 - 16 months)
Job ID: 6803
Application Deadline: <mark>January 26th, 2026</mark>
The Opportunity
May 2026 - August 2027
Do you want to learn a wide variety of technical skills while working with a highly collaborative development team?
As an?Intern?, ?Product and Data Engineering, you'll be paired with an experienced Software Developer as your mentor who will be your guide as?you learn our? wide range of technologies while becoming a core?developer on?one of?our product teams.??We leverage preferred?technologies to deliver software solutions to our?pension and?investment professionals and?as well as?tools to enhance our internal development capability.??During your time at Ontario Teachers' you'll also have time to explore new technologies unrelated to your regular project work and deliver presentations on those technologies as well as other project work to our development team.?At the midpoint of the term, you will transition to a new team, providing exposure to different technologies, team members, and solutions.
Working in a fast-paced team environment, you will have the opportunity to make meaningful contributions to the IT team's work. Be more than a code-churner or gopher; be part of a group where your input is?valued?and your solutions are used. Make a difference in the Product or Data Engineering teams!

Who you'll work with

Collaboration is integral to your work at?Ontario?Teachers'?and you'll be working with people as much as you'll be working with code.??Joining an Engineering?team,?you will work in a small project team delivering software solutions. With support from a mentor, you will have the opportunity to engage with colleagues from across the?organization;?such as business leads, the project delivery team, and other technical specialists within the architecture, development and infrastructure teams.?

What you'll do

• Collaborate?with your team members and customers?on defining the solution architecture and design

•Develop and integrate software solutions and technical tools

•Deliver business services using technologies such as Java,?Spring, C#,?.NET and Python

•Learn the real-world usage of version control and code reviews (GitHub), automated build (Jenkins), and continuous integration

•Track your work using our issue tracker (JIRA) and share your designs on our wiki (Confluence)

•Participate in new technology investigation?and apply this knowledge through solution delivery?or internal hackathons

Compensation:

The expected hourly range for this role is $30 - $33 depending on experience and qualifications.

#LI-SS, #LI-Hybrid

What we're offering

• Numerous opportunities for professional growth and development, including lunch and learns

•Student led team building events on a monthly basis

•Employee discount programs including Edvantage and Perkopolis

At Ontario Teachers', diversity is one of our core strengths. We take pride in ensuring that the people we hire and the culture we create, reflect and embrace diversity of thought, background and experience. Through our Diversity, Equity and Inclusion strategy and our Employee Resource Groups (ERGs), we celebrate diversity and foster inclusion through events for colleagues to connect for professional development, networking & mentoring. We are building an inclusive and equitable workplace where our talent is respected, accepted and empowered to be themselves. To learn more about our commitment to Diversity, Equity and Inclusion, check out Life at Teachers'.

We thank you for applying, however, only those selected for a personal interview will be contacted. Note that candidates must be legally entitled to work in the country where this role is located.

Accommodations are available upon request (peopleandculture@otpp.com) for candidates with a disability taking part in the recruitment process and once hired.

Ontario Teachers' may use AI-based tools to assist in screening and assessing applicants for this position. These tools may help us identify candidates whose skills and experience align with Ontario Teachers' objectives by analyzing information provided in resumes and applications. Our use of AI does not replace human decision-making.
