Job Description

Job Title: Mobile Software Engineer Intern/Co-op
Job ID: R_1412266
Application Deadline: May 16, 2025
TD is committed to providing fair and equitable compensation opportunities to all colleagues. Growth opportunities and skill development are defining features of the colleague experience at TD. Our compensation policies and practices have been designed to allow colleagues to progress through the salary range over time as they progress in their role. The base pay actually offered may vary based upon the candidate's skills and experience, job-related knowledge, geographic location, and other specific business and organizational needs.
As a candidate, you are encouraged to ask compensation related questions and have an open dialogue with your recruiter who can provide you more specific details for this role.
Job Description:
DEPARTMENT OVERVIEW
Co-op and Internship opportunities allow you to gain valuable work experience across a number of the businesses at TD. You will work with experienced colleagues, receive world class training, and be part of a community of students across TD, where you will have an impact, grow as individual and experience our culture of care.
Our Co-op/Intern Programming is offered with select Co-op and Internship roles, and is designed to help you better understand the TD business, build on critical career capabilities, and broaden your professional network. This program is designed to complement your on-the job experience and features:
• Leadership talks with key Leaders from across the organization
•Lunch and Learns on topics such as Innovation

•Diversity and Inclusion and Personal Branding and so much more

JOB DESCRIPTION

You will have the opportunity to work as a Software Engineer on our Mobile platforms, which includes iOS software engineering as well as Android Software engineering.

From Day 1, you are an equal member of the team who will be given meaningful assignments to help us deliver improvements and new mobile products for a variety of customer facing projects across TD, including Mobile Banking, Mobile Direct Investing, Mobile Payments, and Mobile for Everyone.

You will get experience developing native iOS or Android software used by millions of banking, investment, and insurance customers every day.

Responsibilities:

• Work with other software engineers in Agile Scrum teams to design and build native mobile software according to business requirements, UX designs, and architectural guidelines

•Adhere to developer expectations defined by the mobile team to ensure high-quality, re-usable, and maintainable software, including unit testing, code reviews, and documentation

•Continuously enhance your own knowledge and expertise to keep current with leading-edge technologies, trends, and developments, and transfer this knowledge to the team through informal day-to-day interactions and (if you're up for it) Lunch & Learn presentations

•Work on a broad range of tasks and multiple, concurrent projects. Prioritize and manage own workload in order to deliver quality results and meet timelines

•Help create a positive team environment that promotes collaboration, quality, innovation, and teamwork

•Perform Unit and System Integration testing

•Participate in Proof of Concept (POC) on new technologies and document findings

•Troubleshoot and determine root cause and resolution for application defects

•Ensure defect free programming by testing and debugging using available/appropriate tools and participate in reviewing peer coding

•Adhere to standard security coding practices to ensure application is free of most common coding vulnerabilities

•Continuously enhance knowledge/expertise and keep current with leading-edge technologies trends/developments and develop expertise in TD services, applications, infrastructure, analytical tools and techniques that can contribute to effective solution development/delivery

Who We Are

TD is one of the world's leading global financial institutions and is the fifth largest bank in North America by branches/stores. Every day, we deliver legendary customer experiences to over 27 million households and businesses in Canada, the United States and around the world. More than 95,000 TD colleagues bring their skills, talent, and creativity to the Bank, those we serve, and the economies we support. We are guided by our vision to Be the Better Bank and our purpose to enrich the lives of our customers, communities and colleagues.

TD is deeply committed to being a leader in customer experience, that is why we believe that all colleagues, no matter where they work, are customer facing. As we build our business and deliver on our strategy, we are innovating to enhance the customer experience and build capabilities to shape the future of banking. Whether you've got years of banking experience or are just starting your career in financial services, we can help you realize your potential. Through regular leadership and development conversations to mentorship and training programs, we're here to support you towards your goals. As an organization, we keep growing - and so will you.

Our Total Rewards Package

Our Total Rewards package reflects the investments we make in our colleagues to help them and their families achieve their financial, physical, and mental well-being goals. Total Rewards at TD includes a base salary, variable compensation, and several other key plans such as health and well-being benefits, savings and retirement programs, paid time off, banking benefits and discounts, career development, and reward and recognition programs. Learn more

Additional Information:

We're delighted that you're considering building a career with TD. Through regular development conversations, training programs, and a competitive benefits plan, we're committed to providing the support our colleagues need to thrive both at work and at home. Please be advised that this job opportunity is subject to provincial regulation for employment purposes. It is imperative to acknowledge that each province or territory within the jurisdiction of Canada may have its own set of regulations, requirements.

Colleague Development

f you're interested in a specific career path or are looking to build certain skills, we want to help you succeed. You'll have regular

career, development, and performance conversations with your manager, as well as access to an online learning platform and a variety of mentoring programs to help you unlock future opportunities. Whether you have a passion for helping customers and want to expand your experience, or you want to coach and inspire your colleagues, there are many different career paths within our organization at TD - and we're committed to helping you identify opportunities that support your goals.

Training & Onboarding

We will provide training and onboarding sessions to ensure that you've got everything you need to succeed in your new role.

Interview Process

We'll reach out to candidates of interest to schedule an interview. We do our best to communicate outcomes to all applicants by email or phone call.

Accommodation

Your accessibility is important to us. Please let us know if you'd like accommodations (including accessible meeting rooms, captioning for virtual interviews, etc.) to help us remove barriers so that you can participate throughout the interview process. We look forward to hearing from you!

Language Requirement (Quebec only):

Sans Objet
