Job Description	

Job Description

NCOL has a full?time co-op opportunity for the right person. This full?time position includes opportunities to work and grow within our team. Projects are fun, creative and serve in a number of industries. The NCOL Team balances pride of accomplishment and dedication to excellence - with our individual and corporate commitment to a balanced lifestyle.

We seek to match the needs of each individual's space to recharge - with opportunity for career growth.Successful applicants will have the best of both worlds: meaningful work, challenge and career growth - within a family atmosphere that values the whole person and their need for balance.

If the above sounds like you, we'd like to hear from you. Send your resume with cover letter. Include URLs that display

samples of your work, explaining the role played in any site's development.

Job Requirements

We're looking for someone with web technologies and skills down pat. This person:

- has a Computer Science or related degree or is working towards one;
- ideally has 2?3 years of significant industry experience, but not required;
- has a thorough understanding of relational databases;
- understands Internet?database connectivity complexities;
- exhibits proficiency with of one or more of Node.js, .NET, PHP, Java or other;
- is knowledgeable in use of JavaScript (including React, Vue or similar), CSS, responsive design and more;
- is a quick learner, who likes to stay current in evolving web technologies; and,

- enjoys a technical challenge.

We're looking for someone:

- with appreciation and understanding of good human?computer interface and design;
- who balances taking initiative with the need to work within a framework;
- who understands that integrity means delivering on your promises; and
- who focuses on the strengths of what the web can do;

The successful candidate:

- will have superior people skills, including verbal and written communication;
- understands the importance of timely and accurate communication and client service;
- understands and uses project management principles, with strong attention to detail;
- is a team player who takes responsibility in a supportive team setting; and
- will thrive in a fast?paced, self?directed environment.

Citizenship Requirement   N/A
